MISSISSIPPI STATE UNIVERSITY

CONSOLIDATED FINANCIAL REPORT

FOR THE YEAR ENDED JUNE 30, 2016

MANAGEMENT'S DISCUSSION & ANALYSIS

The following Management's Discussion and Analysis (MD&A) is provided to allow an overview of Mississippi State University's financial position and performance. The discussion focuses on the reasons for material change as they relate to specific categories in the statements and is intended to be read in conjunction with the financial statements and accompanying note disclosures. This MD&A presents financial information for the fiscal year ended June 30, 2016, and comparative data for the fiscal year ended June 30, 2015 to aid in the analysis of the financial performance for the institution. The accompanying financial statements, notes and this discussion are the responsibility of management.

OVERVIEW OF THE INSTITUTION

Mississippi State University (the "University") is ranked as a top 100 research institution based on National Science Foundation expenditures. The University began as The Agricultural and Mechanical College of the State of Mississippi, one of the national Land Grant Colleges established after Congress had passed the Morrill Act in 1862. It was created by the Mississippi Legislature on February 28, 1878, to fulfill the mission of offering training in "agriculture, horticulture and the mechanical arts… without excluding other scientific and classical studies, including military tactics". In 1887 Congress passed the Hatch Act, which provided for the establishment of the Agricultural Experiment Station in 1888. Two other pieces of federal legislation provided funds for extending the mission of the College: in 1914, the Smith Lever Act called for "instruction in practical agriculture and home economics to persons not attendant or resident," thus creating the state wide effort which led to Extension offices in every county of the State; and, in 1917, the Smith Hughes Act which provided for the training of teachers in vocational education.

The University now comprises the following academic units: the College of Agriculture and Life Sciences including the School of Human Sciences; the College of Architecture, Art and Design; the College of Arts and Sciences; the College of Business, including the Adkerson School of Accountancy; the College of Education; the Bagley College of Engineering, including the Swalm School of Chemical Engineering; the College of Forest Resources; the Shackouls Honors College; the Office of the Graduate School; and the College of Veterinary Medicine. In addition, the Mississippi Agricultural and Forestry Experiment Station, operating 16 branch stations throughout the State of Mississippi, conducts research in a variety of areas and assists in the University's teaching and service functions. Finally, the Mississippi State University Extension Service offers programs and services to the people of the State of Mississippi through campus and county offices and personnel.

Mississippi State University operates an off campus degree granting center in Meridian where both undergraduate and graduate programs are offered and a program center at the Stennis Space Center. In cooperation with the U.S. Army Engineer Waterways Experiment Station, the College of Engineering offers the Master of Science degree to qualified students in Vicksburg.

Mississippi State University offers more than 180 degrees, which includes 14 master's degrees in 59 programs, an educational specialist degree in 8 programs, and doctoral degrees in 35 programs. The University had an enrollment of 20,873 students as of the fall of 2015 and employs 4,787 employees including 1,181 full time faculty and 182 part time faculty.

STATEMENT OF NET POSITION

The Statement of Net Position presents the financial position of the University at the end of the fiscal year. This statement reflects the assets, deferred outflows, liabilities, deferred inflows and net position of the University as of the fiscal year ended June 30, 2016, and is prepared under the accrual basis of accounting. Revenues and

assets are recognized when the goods and services are provided, and expenses and liabilities are recognized when goods and services are received, regardless of when cash is exchanged. It is also important to note both assets and liabilities are presented as current and noncurrent. This distinction allows readers to determine the availability of assets to continue current operations and also provides a long term perspective. Likewise, the reader is also able to determine from the presentation of liabilities the current obligations due within one year, as well as, future obligations due more than one year from the date of the statement. Net position is further broken down into three categories: (1) net invested in capital assets, which represents the historical cost of property and equipment reduced by the balance of related debt outstanding and depreciation expense charged over the years; (2) the restricted component of net position which relates to assets with constraints imposed by third parties; (3) and the unrestricted component of net position that can be used at the discretion of University administration within the bounds of state law. Additionally, assets within the restricted component are either nonexpendable, as in the case of endowment gifts to be held in perpetuity, or expendable, as in the case of funds for scholarships, research, or other purposes.

The University's financial position for fiscal year 2016 increased by $48.3 million over the previous year, which included an increase in total assets of $54.8 million. Current assets rose $16.2 million, with cash and cash equivalents accounting for $13.9 million of that gain due to a large influx of cash related to athletics at year end. Accounts receivable reflected an increase of $3.6 million as a result of upturn in both receivables due from agency contracts and from students. However, that increase was offset by a decrease in prepaid expenses.

Noncurrent assets showed growth due to the University's continued work on construction of a classroom and parking garage building, a new residence hall, a new south entrance to campus and various other additions and renovations to buildings and infrastructure. Those efforts are reflected in the sizable addition of $82.4 million to capital assets, net of related debt. A decrease in restricted cash did accompany the constructions efforts, as the University spent down proceeds from a $56 million bond issue which funded the construction.

Deferred outflows showed a significant growth largely related to a $42 million deferral due to changes in assumptions related to pension liability measurement. This element and recognition of other deferred outflows related to pension are a result of the University's adoption of the Governmental Accounting Standards Board (GASB) pronouncements 68 and 71 in fiscal year 2015.

Current liabilities remained largely unchanged; however, noncurrent liabilities reflected a significant increase due to the implementation of GASB pronouncements 68 and 71 in fiscal year 2015, which required the University to recognize its proportionate share of the net pension liability of the Mississippi Public Employees Retirement System. As a result, the University recognized a $378 million liability in fiscal year 2015 which increased to $488 million in fiscal year 2016.

Overall net position rose $48.3 million, which included $45.7 in additions to capital assets. The negative $210.5 million balance in unrestricted net position is indicative of the University's large pension liability, but did show a small increase over 2015.

STATEMENTS OF REVENUES, EXPENSES AND CHANGE IN NET POSITION

The Statement of Revenues, Expenses and Changes in Net Position represents the revenues earned and the expenses incurred during the year, regardless of when cash is received or disbursed. Activities in this statement are presented as either operating or non-operating. Operating revenues are recorded in exchange for providing goods and services. Operating expenses are incurred as a result of normal operations of the University but also include depreciation on capital assets. The University relies on state appropriations, gifts and investment income to support day-to-day operations. However, those revenue categories are required by the Government Accounting Standards Board to be classified as non-operating revenues. Non-operating expenses include capital financing costs and loan cancellation expenses.

Total operating revenues increased $44.2 million for fiscal year 2016 as compared to fiscal year 2015. Tuition and fees revenue showed a significant boost of $17.2 million due to a five percent increase in the tuition rate for residents and an eleven percent increase for non-residents along with increased enrollment. Federal grants and

5%	Depreciation	32,985,045
Total Operating Expenses		**$676,519,937**

contracts revenue rose $14.6 million largely as the result of higher inflows from Department of Agriculture grants, and Athletics revenue showed a gain over fiscal year 2015 due to a greater amount distributed by the Southeastern Conference.

Total operating expenses also were on the rise in fiscal year 2016. Salaries reflected an $18.5 million increase attributed to pay increases, while fringes reflected a $28.6 million to accompany the raises and also as a result of higher pension expense. $3.7 million more in Scholarships and Fellowships was awarded, which can be attributed in large part to the tuition rate increase. Contractual expenses showed a slight uptick that was more than offset by the decrease in commodities expense due to the University's increased funding for capital purposes.

Non-operating revenues net of expenses rose $12.8 million with the change in state appropriations accounting for a significant part of the increase. Another notable increase for this category was recognized in gifts and grants income.

Other revenues, expenses, gains and losses for the current fiscal year decreased as compared to the prior fiscal year due to a smaller figure recognized for state appropriations used for capital purposes. The University has less projects ongoing through Bureau of Buildings than in the previous year.

STATEMENTS OF CASH FLOWS

The Statement of Cash Flows must also be evaluated when considering the financial condition of the University's ability to meet financial obligations over time. This statement presents information related to cash inflows and outflows summarized in the categories of operating activities, noncapital financing activities, capital and related financing activities and investing activities. Its purpose is to assist in the evaluation of the institution's ability to meet its obligations as they come due and its need for external financing. Cash flows from operating activities show the net cash used by the operating activities of the University. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities display the use of cash and cash equivalents to purchase investments. Cash flows from noncapital financing activities are those not covered in other sections.

Net cash utilized for operations was less in fiscal year 2016 than in 2015. Increases for tuition and fees along with larger grants and contracts revenue resulted in more cash inflows. Those gains aided by smaller outflows for contractual obligations helped to offset larger outflows for salaries and fringes. Noncapital financing activities reflected the rise in state appropriations along with gifts and grants. The large increase in net cash used for capital and related financing activities is indicative of the many capital projects that were on-going at the University during fiscal year 2016. Net cash from investing activities showed no material change.

CAPITAL ASSETS AND DEBT ADMINISTRATION

As of June 30, 2016 and 2015, the University had $946 million and $864 million invested in capital assets, net of accumulated depreciation of $486 million and $459 million, respectively. Depreciation expense totaled $33 million and $32.6 million for fiscal years 2016 and 2015, respectively. The following projects were completed and waiting to be finalized at the end of fiscal year 2016:

MAJOR RENOVATIONS

- Deavenport Hall
- Dogwood Hall
- Nunsz Hall (Center for America's Veterans)
- Davis Wade Stadium renovation
- Fresh Foods Facility

As of the end of fiscal year 2016, the University continues to invest in capital facilities as part of a long range plan to provide a modern and functional environment for its faculty, staff and

students. Major projects underway at fiscal year-end include a classroom and parking garage project situated strategically in the center of campus which will provide 20 new classrooms on the upper level and a 150-space, two-story parking garage. All but the finishing touches were completed on a new dining facility with an indoor seating capacity of 480 and a 48-seat outdoor dining area along with a student lounge. Construction on a new residence hall and the Center for American Veterans should be finalized in the new fiscal year. And finally, work continues on the new south campus entrance which will aid traffic flow to and from the southern areas of Starkville immensely.

ENROLLMENT

Total enrollment for the fall 2015 semester was 20,873 students, which was an increase of 735 students over the fall of 2014 semester when 20,138 students were enrolled. Mississippi residents accounted for 67% of the total enrollment in fall 2015 and for 68% of total enrollment for fall 2014. Enrollment totals are unduplicated and include all campuses of the University.

DEGREES AWARDED

A total of 4,271 degrees were awarded in 2015-2016: 3,302 undergraduate and 969 graduate. A breakdown by college is shown in the accompanying table. Information from 2014-2015 is included for comparison.

FINANCIAL SUMMARY AND OUTLOOK

Mississippi State University experienced a strong financial position in FY 2016 and substantial enrollment growth for both fall 2015 and fall 2016. For the second year in a row, enrollment increased by over 700 students resulting in a record 21,622 students during fall 2016. The completion of the 750 bed Earnest W. and Mary Ann Deavenport and Dogwood Residence Halls, completion of Nusz Hall the new home of Mississippi State University's G.V. "Sonny" Montgomery Center for America's Veterans, and the ongoing construction of the multi-million-dollar state-of-the-art classroom building with parking and the multi-million-dollar expansion of the Mitchell Memorial Library are indications of the continued growth and improvements at MSU.

FY 2016 also presented numerous challenges and opportunities as MSU experienced mid-year appropriation cuts as state revenues fell short of expectations. Mississippi State's leadership continued its proactive approach to address funding reductions. Successful efficiency efforts,

CONDENSED STATEMENT OF CASH FLOWS

	FY 2016	FY2015	Difference	Variance
Cash Provided (used) by:				
Operating Activities	($170,512,874)	($183,951,753)	($13,438,879)	7%

a tuition increase, and enrollment growth helped offset the appropriation shortfall.

MSU will continue to face funding obstacles in the future due to the continued uncertainty surrounding the timing and speed of economic recovery. However, the leadership's focus and flexibility combined with the dedication of the University's employees have positioned the University to weather any potential storms. These efforts continue to be supported by rising enrollment and Mississippi State University remains committed to a long-term financial plan that will sustain the university and allow it to continue to provide world-class teaching, research and service for the State of Mississippi and beyond.

MISSISSIPPI STATE UNIVERSITY

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1:
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
NATURE OF OPERATIONS

Mississippi State University (the University) is a comprehensive, doctoral degree granting university offering to a diverse and capable student body, a wide range of opportunities and challenges for learning and growth; to the world of knowledge, vigorous and expanding contribution in research, discovery, and application; and to the State of Mississippi (the State) and its people in every region, a variety of expert services.

REPORTING ENTITY

The Mississippi Constitution was amended in 1943 to create a separate legal entity and establish a Board of Trustees of State Institutions of Higher Learning (Board). This constitutional Board provides management and control of Mississippi's system of universities. The University is a member (department) of the State of Mississippi Institutions of Higher Learning (IHL System).

Through its member universities, the IHL System serves the state, national, and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge, and by disseminating knowledge to the people of the State and throughout the world.

The current twelve Board members of the IHL System were appointed by the Governor and approved by the Senate for twelve year terms as follows: one from each of the seven congressional districts, one from each of the three Supreme Court Districts, and two appointed from the state at large. The Mississippi Constitution was amended in 2003 to change the length of terms and appointment districts for Board members. New appointments will occur from three current Supreme Court districts for terms of nine years. The amendment provides for these new appointments and tenures to be gradually implemented. Full implementation occurred in 2012.

The University's financial statements include the accounts of the Mississippi State University Educational Building Corporation, an educational building corporation and a nonprofit corporation incorporated in the State of Mississippi established in accordance with Section 37 101 61 of the Mississippi Code Annotated of 1972. The purpose of this corporation is for the acquisition, construction and equipping of facilities and land for the University.

In accordance with GASB Statement Nos. 14 and 61, this educational building corporation is deemed a component unit of the State of Mississippi Institutions of Higher Learning and is included as a blended component unit in the general purpose financial statements.

The State of Mississippi Institutions of Higher Learning is considered a component unit of the State of Mississippi reporting entity.

Legally separate, tax exempt organizations whose activities primarily support members of the IHL System, which are component units of the IHL System reporting entity, are considered potential component units of the State. See note 17 for additional information.

BASIS OF PRESENTATION

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles as prescribed by the GASB. The University's financial statements follow the "business type activities" reporting model which provides a comprehensive one look at the University's financial activities.

BASIS OF ACCOUNTING

The financial statements of the University have been prepared on the accrual basis whereby all revenues are recorded when earned and expenses are recorded when an obligation has been incurred.

Grant and contract revenues, which are received or receivable from external sources, are recognized as revenues to the extent of related expenses or satisfaction of eligibility requirements. State appropriations are recognized as non-operating revenues when eligibility requirements are satisfied.

In accordance with GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, the University follows all applicable GASB pronouncements. Previously, the University applied all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989, unless those pronouncements conflicted with or contradicted GASB pronouncements. However, GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements codified those pre-GASB pronouncements and made it possible for Universities to find all authoritative guidance within the GASB pronouncement framework.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The University's investments are invested in various types of investment securities within various markets. Investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the University's financial statements.

CASH EQUIVALENTS

The University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

SHORT-TERM INVESTMENTS

Short term investments are investments that are not cash equivalents but mature within the next fiscal year.

ACCOUNTS RECEIVABLE, NET

Accounts receivable consist of tuition and fee charges to students. Accounts receivable also include amounts due from federal and state governments, and nongovernmental sources, in connection with reimbursement of allowable expenses made pursuant to the University's grants and contracts. Accounts receivable are recorded net of an allowance for doubtful accounts.

STUDENT NOTES RECEIVABLE, NET

Student notes receivable consist of federal, state, and institutional loans made to students for the purpose of paying tuition and fee charges. Loan balances expected to be paid during the next fiscal year are presented on the statements of net position as current assets. Those balances that are either in deferment status or expected to be paid back beyond the next fiscal year are presented as noncurrent assets on the statement of net position.

INVENTORIES

Inventories consist of central supply inventories and storeroom inventories. These inventories are generally valued at the lower of cost or market, on the first in, first out (FIFO) basis.

PREPAID EXPENSES

Recorded items consist of expenditures that are related to projects, programs, activities, or revenues of future fiscal periods.

RESTRICTED CASH AND CASH EQUIVALENTS

Cash and cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statement of net position.

ENDOWMENT INVESTMENTS

Endowment investments are generally subject to the restrictions of donor gift instruments. They include donor-restricted endowments, which are funds received from a donor with the restrictions that only the income is to be utilized, and funds functioning as endowments, which are funds established by the governing board to function similar to an endowment fund but may be expended at any time at the discretion of the governing board.

INVESTMENTS

Substantially all investments are reported at fair value. Unrealized gains (losses) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net position.

CAPITAL ASSETS

Capital assets are recorded at cost at the date of acquisition, or, if donated, at fair value at the date of donation. For movable property, the University's capitalization policy includes all items with a unit cost of $5,000 or more and an estimated useful life greater than one year. Renovations to buildings and improvements other than buildings that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight line method over the estimated useful life of the asset and is not allocated to the functional expenditure categories. See note 6 for additional details concerning useful lives and salvage values. The University uses the composite method for library book depreciation if the books are considered to have a useful life of greater than one year. Expenditures for construction in progress are capitalized as incurred. Interest expense relating to construction is capitalized net of interest income earned on resources set aside for this purpose if material.

ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Recorded items consist of amounts owed to vendors, contractors, or accrued amounts such as interest, wages, and salaries.

COMPENSATED ABSENCES/ACCRUED LEAVE

Twelve month employees earn annual personal leave at a rate of 12 hours per month for zero to three years of service; 14 hours per month for three to eight years of service; 16 hours per month for eight to fifteen years of service; and 18 hours per month for fifteen years of service and above. There is no requirement that annual leave be taken, and there is no maximum accumulation. At termination, employees are paid up to 240 hours of accumulated leave.

Nine month employees earn major medical leave at a rate of 13 1/3 hours per month for one month to three years of service; 14 1/5 hours per month for three to eight years of service; 15 2/5 hours per month for eight to fifteen years of service; and 16 hours per month for fifteen years of service and above. There is no limit on the accumulation of major medical leave. At retirement, employees are paid up to 240 hours of accumulated major medical leave.

UNEARNED REVENUES

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

NONCURRENT LIABILITIES

Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable and capital lease obligations; (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

INCOME TAXES

As a state institution of higher learning, the income of the University is generally exempt from federal and state income taxes under Section 115(1) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

CLASSIFICATION OF REVENUES AND EXPENDITURES

The University has classified its revenues as either operating or non-operating revenues according to the following criteria:

OPERATING REVENUES AND EXPENSES

Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition, net of scholarship discounts and allowances and bad debt expense, (2) sales and services of educational departments and auxiliary enterprises (net of scholarship discounts and allowances), (3) Federal, state and local grants and contracts (non Title IV financial aid) and Federal appropriations, if any, and (4) interest on institutional student loans and other revenues. Examples of operating expenses include

(1) employee compensation, benefits, and related expense; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, commodities (supplies), and contractual services; (4) professional fees; and (5) depreciation expenses related to certain capital assets.

NONOPERATING REVENUES AND EXPENSES

Non-operating revenues have the characteristics of non-exchange transactions. Non-operating revenues include activities that have the characteristics of non-exchange transactions, including state appropriation for operations and capital uses, federal grants for financial aid, gifts, investment income, and other revenue sources that are defined as non-operating revenues by GASB No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Examples of non-operating expenses include interest on capital asset related debt and bond expenses.

AUXILIARY ENTERPRISE ACTIVITIES

Auxiliary enterprises typically exist to furnish goods or services to students, faculty or staff, and charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. One distinguishing characteristic of auxiliary enterprises is that they are managed as essentially self supporting activities.

Auxiliary enterprises include residence halls, food services, bookstore, convenience store, laundry, and faculty and staff housing. The general public may be served incidentally by auxiliary enterprises.

SCHOLARSHIP DISCOUNTS AND ALLOWANCES

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid, such as loans, funds provided to students as awarded by third parties and Federal Direct Lending, is accounted for as a third-party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as scholarship allowances, which reduce operating revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash.

Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a University basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third-party aid.

NET POSITION

The University adopted GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position in fiscal year 2013, and, as a result, began reporting equity balances (previously referred to as "Net Assets") as "Net Position." Net position represents the difference between all other elements in a statement of financial position and is displayed in three components-net investment in capital assets; restricted (distinguishing between major categories of restrictions); and unrestricted.

Net Invested in Capital Assets reflects the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such debt is excluded from the calculation of Net Invested in Capital Assets.

Restricted, nonexpendable net position consists of endowment and similar type funds which donors or other outside sources have stipulated, as a condition of the gift instrument, the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted, expendable net position includes resources that the University is legally or contractually obligated to spend in accordance with restrictions imposed by external parties. When both restricted and unrestricted resources are available for use, it is generally the University's policy to utilize restricted resources first and then unrestricted resources as needed.

Unrestricted net position represents resources derived from student tuition and fees, state appropriations, sales and services of educational activities, unrestricted gifts and grants, and auxiliary enterprises. While

unrestricted net assets may be designated for specific purposes by action of management or the Board, they are available for use at the discretion of the governing board, to meet current expenses for any purpose. Substantially all unrestricted net assets are designated by the Board for academic and research programs and initiatives and capital programs.

The unrestricted net position balance of -$210,465,011 at June 30, 2016, includes $14,140,864 reserved for academic programs and research, $17,592,139 reserved for capital projects, $20,402,215 reserved for repairs and maintenance, with $145,351,471 remaining for other purposes and -$407,951,701 related to the University's pension liability.

PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Mississippi (PERS) and additions to/deductions from PERS's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NEW ACCOUNTING STANDARD

The IHL System adopted GASB Statement No. 72, Fair Value Measurement and Application, for the year ended June 30, 2016. The statement provides guidance for determining a fair value measurement for financial reporting purposes and also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

NOTE 2
CASH AND INVESTMENTS

(A) POLICIES

CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS

Investment policies, as set forth by the IHL System Board of Trustees policy and state statute, authorize the University to invest in demand deposits and interest bearing time deposits such as savings accounts, certificates of deposit, money market funds, U.S. Treasury bills and notes, and repurchase agreements. Investment policy at the University is governed by state statute (Section 27 105 33, MS Code Ann. 1972) and the Uniform Prudent Management of Institutional Funds Act of 2006, which was adopted by the State, effective July 1, 2012.

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27 105 5 of the Mississippi Code Annotated (1972). Under this program, the University's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits. In the event of the failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

INVESTMENTS

Investment policies as set forth by Board policy as authorized by Section 37 101 15, Mississippi Code Annotated (1972), authorize the University to invest in equity securities, bonds, and other securities. Investments are reported at fair value.

A summary of cash and investments as of June 30, 2016 can be found below.

MISSISSIPPI STATE INVESTMENT POOL

The Mississippi State University Foundation, the University, the MSU Alumni Foundation, and the MSU Bulldog Club, Inc. are participants in a joint venture, the Mississippi State Investment Pool (MSIP), whereby certain assets are pooled for investment purposes. The Foundation is the investment pool's managing member, manages the assets of the pool, and maintains separate accounts for each participant. Investment income, gains and losses, and expenses of the MSIP are allocated to each participant based on their share of ownership of the MSIP. As of June 30, 2016 and 2015, the University owned an approximate 9.30% and 10.01% interest in the assets of the MSIP.

(B) CUSTODIAL CREDIT RISK

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered with securities held by the counterparty's trust department or agent, but not held in the government's name. The University had no investments exposed to custodial credit risk at June 30, 2016 and 2015.

(C) INTEREST RATE RISK

Interest rate risk is defined as the risk a government may face should interest rate variances adversely affect the fair value of investments. The University does not presently have a formal policy that addresses interest rate risk. As of June 30, 2016 and 2015, the University had the following investments subject to interest rate risk as shown in the table above.

(D) CREDIT RISK

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. The University does not have a formal investment policy that addresses credit risk.

As of June 30, 2016 and 2015, as detailed in the table above, investments are subject to credit risk.

The credit risk ratings listed above are issued based upon standards set by Moody's Investors Service.

(E) CONCENTRATION OF CREDIT RISK

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The University does not presently have a formal policy that addresses concentration of credit risk. As of June 30, 2016 and 2015, the University had the following issuers holding investments that exceeded 5% of total investments as shown in the table above and to the left of this page.

FY 2015 NOTES RECEIVABLE FROM STUDENTS

	Interest Rates	June 30, 2015	Current Portion	Non-Current Portion
Perkins student loans	3% to 9%	$17,429,806	$4,061,646	$13,368,160
Institutional loans	0% to 9%	967,391	205,005	762,386
Total Notes receivable		18,397,197	4,266,651	14,130,546
Less allowance for doubtful accounts		1,892,021		1,892,021
Net Notes receivable		**$16,505,176**	**$4,266,651**	**$12,238,525**

NOTE 3
FAIR VALUE MEASUREMENT

Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application, enhances comparability of governmental financial statements by requiring fair value measurement for certain assets and liabilities using a consistent definition and accepted valuation techniques. The standard establishes a hierarchy of inputs used to measure fair value that prioritizes the inputs into three categories – Level 1, Level 2 and Level 3 inputs – considering the relative reliability of the inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted (unadjusted) prices in active markets for identical financial assets or liabilities that the government has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the financial asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the financial asset or liability.

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The table on page 21 presents the financial ssets carried at fair value by level within the valuation heirarchy as of June 30, 2016 and 2015.

ACCOUNTS PAYABLE & ACCRUED LIABILITIES

	2016	2015
Payable to vendors and contractors	$15,121,251	$15,227,312
Accrued salaries, wages and employee withholdings	13,217,899	12,613,356
Accured interest	(600,007)	(391,698)
Total	**$27,739,143**	**$27,448,970**

NOTE 4
ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following at June 30, 2016 and 2015 as shown in the table above. As a component unit of the State of Mississippi, the IHL System is precluded by statute from discharging amounts owed. Accordingly, gross accounts receivables and the allowance for doubtful accounts include amounts considered to be 100% uncollectible and fully reserved in prior years.

NOTE5
NOTES RECEIVABLE FROM STUDENTS

Notes receivable from students are payable in installments over a period of up to ten years, commencing three to twelve months from the date of separation from the University.

The schedule shown above is of interest rates and unpaid balances as of June 30, 2016 and 2015.

NOTE6
CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2016 and 2015 is presented on page 23.

Depreciation is computed on a straight line basis with the exception of library books, for which depreciation is computed using a composite method. The following useful life, salvage values, and capitalization thresholds are used to compute depreciation are shown in the table on page 23.

NOTE 7
ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities as of June 30, 2016 and 2015 are shown above.

All amounts are considered current and expected to be settled within one year.

FY 2016 CAPITAL ASSETS

NOTE 8

UNEARNED REVENUES

Unearned revenues as of June 30, 2016 and 2015 are shown to the left on page 24.

NOTE 9

LONG-TERM LIABILITIES

Long term liabilities of the University which consist of bonds payable, capital lease obligations, and certain other liabilities that are expected to be liquidated at least one year from June 30, 2016 and 2015 are presented on page 24 and 25. Annual requirements to repay outstanding debt are also displayed on page 24.

BONDS PAYABLE

The University has issued bonds to construct, renovate, and improve various campus facilities. As noted in the summary of significant accounting policies, the University established the Mississippi State University Educational Building Corporation (MSUEBC). This nonprofit Mississippi corporation was established in accordance with Section 37-101-61 of the Mississippi Code Annotated, 1972, for the purpose of acquiring, constructing, renovating, improving, and equipping University facilities. In accordance with GASB Statement Nos. 14 and 61, MSUEBC is considered a blended component unit of the university and is included in the general purpose financial statements.

1981, Series C – United States Housing and Urban Development, Dormitory Renovation Loan – MSU issued bonds totaling $2,250,000 in June 1981 (Series 1981C) for the renovation of residence halls on the main campus of MSU. Outstanding coupons bear interest at a rate of 3.00% with the final maturity in December 2020.

1981 Student Housing Revenue Bond of 1981 – MSU issued bonds totaling $2,038,000 in December 1981 (Series 1981) for the constructing of married student apartments and housing for graduate students on the main campus of MSU. Outstanding coupons bear interest at a rate of 3.00% with a final maturity in December 2021.

Series 1998 – MSUEBC issued bonds totaling $31,865,000 in August 1998 (Series 1998) for the construction, repairs, renovations, equipping, and improvements to student housing as well as other buildings on and off campus. $16,535,000 of outstanding coupons were called and redeemed on May 5, 2009.

Series 2004 – MSUEBC issued bonds totaling $17,000,000 in January 2004 (Series 2004) for the construction of energy production, management, and storage facilities to enable Mississippi State

University to take full advantage of lower cost variable price interruptible (VPI) electrical power rates offered by TVA and the City of Starkville, MS. Outstanding coupons bear interest at rates ranging from 3.50% to 4.60% with final maturity in August 2028.

Series 2004-A – MSUEBC issued bonds totaling $28,790,000 in November 2004 (Series 2004-A) for (i) the construction of Roy H. Ruby Hall ("Ruby Hall") for student housing and (ii) the refunding of MSUEBC bonds issued in November 1993 (Series 1993), MSUEBC bonds issued in June 1995 (Series 1995), and the partial refund of MSUEBC bonds issued in December 1996 (Series 1996). All remaining Series 1996 bonds matured in August 2007.

Series 2005 – MSUEBC issued bonds totaling $58,965,000 in November 2005 (Series 2005) for construction of new student housing facilities, the Palmeiro Center, the building to house the Barnes & Noble Bookstore, the MSU Welcome Center, and additional infrastructure. Outstanding coupons bear interest rates of 5.00% with final maturity in August 2035.

Series 2007A – MSUEBC issued bonds totaling $6,110,000 in July 2007 (Series 2007A) for the (i) construction, rehabilitation, renovation, improving, repairing, equipping, and installing Colvard Student Union on the main campus of MSU, (ii) provide for capitalized interest in connection with the project, and (iii) pay the cost of issuing the bonds. Outstanding coupons bear interest at rates ranging from 4.125% to 5.00% with final maturity in August 2027.

Series 2009A-1 – MSUEBC issued bonds totaling $29,615,000 in May 2009 (Series 2009A-1) for (i) constructing, furnishing, and equipping a new residence hall on the main campus of MSU, (ii) demolishing an abandoned residence hall, (iii) providing capitalized interest in connection with the project, and (iv) paying the costs of issuing the Bonds. Outstanding coupons bear interest at rates ranging from 2.75% to 5.25% with the final maturity in August 2038.

Series 2009A-2 – MSUEBC issued bonds totaling $17,105,000 in May 2009 (Series 2009A-2) for refunding of a portion of the MSUEBC bonds issued August 1998 (Series 1998). Outstanding coupons bear interest at rates ranging from 3.00% to 4.50% with the final maturity in August 2023.

Series 2011 – MSUEBC issued bonds totaling $54,370,000 in July 2011 (Series 2011) for (i) constructing, furnishing, and equipping new residence halls on the main campus of MSU and (ii) refunding of MSUEBC bonds issued in February 2001 (Series 2001). Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with the final maturity in August 2041. The University defeased $8,940,000 of the outstanding EBC Revenue Bonds, Series 2001. The balance of the proceeds ($45,990,000) funded the construction of two new student housing facilities. As a result of the refunding, the University reduced its debt service requirement by $1,352,050 over the next 15 years and obtained an economic gain of $954,015.

Series 2013 – MSUEBC issued bonds totaling $60,470,000 in October 2013 (Series 2013) for (i) refunding of commercial paper and (ii) renovating Davis Wade Stadium. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August 2043. The University refunded $45,000,000 in commercial paper with the balance of the proceeds ($15,470,000) funding the renovation of Davis Wade Stadium.

Series 2014A – MSUEBC issued bonds totaling $89,810,000 in May 2014 (Series 2014A) for (i) refunding of MSUEBC bonds issued in January 2004 (Series 2004), bonds issued in November 2004 (Series 2004A), and bonds issued in November 2005 (Series 2005) and (ii) construction of a new classroom building/parking garage. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August 2043. The University defeased $71,245,000 of the outstanding EBC-Revenue Bonds (Series 2004, 2004A and 2005). Net proceeds of the refunding were deposited into irrevocable trusts for each of the refunded issues to provide all future debt service of the refunded debt. Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. As a result of the refunding, the University reduced its debt service by $8,309,325 over the next 21 years and obtained an economic gain of $6,406,286.

Series 2014B – MSUEBC issued bonds totaling $23,435,000 in May 2014 (Series 2014B) for construction of a new classroom building/parking garage and a new fresh foods facility. Outstanding coupons bear interest at rates ranging from .29% to 4.813% with final maturity in August 2043.

Series 2015 – MSU EBC issued bonds totaling $56,010,000 in April, 2015 (Series 2015) for certain improvements and capital expenditures, including but not limited to, constructing, furnishing and equipping residence halls and a Center for America's Vets, and demolishing abandoned facilities, and to pay the related costs of the issuance, sale and delivery of the Series 2015 Bonds. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in November, 2044.

COMMERCIAL PAPER

In February 2012, the Board of Trustees of State Institutions of Higher Learning authorized the MSU Educational Building Corporation to establish an extendible commercial paper program that allows the institution to issue up to a maximum aggregate principal amount of $50 million in the form of commercial paper. The commercial paper program was utilized in fiscal year 2013 as an interim financing vehicle for the renovation of Davis Wade Stadium but was converted into long-term debt by the MSUEBC 2013 Bond Issue. The University's commercial paper program is currently dormant, with no balance outstanding; however, the program could be reactivated at any time should the University deem it necessary.

NOTE 10
OPERATING LEASES

Leased property under operating leases is composed of office rent, land, computer software, and equipment. The following is a schedule by year of the future minimum rental payments required under those non-cancelable leases in the table on page 27.

The total rental expense for all operating leases, except those with terms of one month or less that were renewed, for the fiscal years ended June 30, 2016 and 2015

NOTE 12

CONSTRUCTION COMMITMENTS AND FINANCING

The University has contracted for various construction projects as of June 30, 2016. Estimated costs to complete various projects for June 30, 2016 and 2015 and the sources of anticipated funding are presented on page 28.

NOTE 13

PENSION PLAN - PERS DEFINED BENEFIT PLAN

(A) PLAN DESCRIPTION

The IHL System participates in either the Public Employees' Retirement System of Mississippi (PERS), a cost-sharing multiple-employer defined benefit pension plan or the Optional Retirement Plan (ORP), a multiple-employer defined contribution plan established in 1990. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state law and may be amended only by the State of Mississippi Legislature. PERS issued a publicly available financial report that includes financial statements and required supplementary information. That information may be obtained by writing to the Public Employees' Retirement IHL System, PERS Building, 429 Mississippi Street, Jackson, MS 39201-1005 or by calling (601) 359-3589 or 1-800-444-PERS.

VESTING PERIOD

In 2007, the Mississippi Legislature amended the PERS Plan to change the vesting period from four to eight years for members who entered the IHL System after July 1, 2007. A member who entered the IHL System prior to July 1, 2007 is still subject to the four year vesting period provided that the member does not subsequently refund their account balance.

FUNDING POLICY

PERS members are required to contribute 9.0% of their annual salary and the institution is required to contribute at an actuarially determined rate. The actuarially determined rate was 15.75% of annual covered payroll at June 30, 2016 and 2015. The contribution requirements of PERS members are established and may be amended only by the State of Mississippi Legislature. The University's contributions to PERS for the years ended June 30, 2016, 2015, and 2014, were $32,477,321, $31,039,083, and $29,944,442, respectively. Such contributions equaled the required contributions for each respective year.

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS OF RESOURCES AND DEFERRED

At June 30, 2016 and 2015, the University reported a liability of $487.6 million and $377.7 million, respectively, for its proportionate share of the net pension liability. The net pension liability for June 30, 2016 was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The University's proportion of the net pension liability was based on a projection of the University's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. The University's proportionate share of the net pension liability as of June 30, 2015 and 2014 was 3.15 and 3.11 percent, respectively.

For the years ended June 30, 2016 and 2015, the University recognized pension expense of $48.6 million and $27.0 million, respectively. At June 30, 2016, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources found on page 29.

DEFERRED OUTFLOWS & INFLOWS OF RESOURCES

Deferred Outflows of Resources					Deferred inflows of Resources			
Differences between expected and actual experience	Change of assumption	Changes in proportion and differences between Empoyer contributions and proportionate share of contributions	Contributions subsequent to the measurement date	**Total deferred outflows of resources**	Differences between expected and actual experience	Net difference between projected and actual investment earnings on pension plan investments	Change of assumption	**Total deferred inflows of resources**
$11,276,490	$42,006,774	$6,830,389	$32,082,720	**$92,196,373**	-	$12,528,421	-	**$12,528,421**

DEFERRED OUTFLOWS & INFLOWS OF RESOURCES

Deferred outflow of resources year ended June 30						
	2017	2018	2019	2020		Total
Mississippi State University	16,159,584	16,159,584	16,159,584	11,634,901		60,113,653

Deferred inflow of resources year ended June 30						
	2017	2018	2019	2020	2021	Total
Mississippi State University	2,505,684	2,505,684	2,505,684	2,505,684	2,505,685	12,528,421

ASSET ALLOCATION

ASSETS	Target Allocation	Long-term Expected Real Rate of Return
U.S. Broad	34.00%	5.20%
International equity	19.00%	5.00%
Emerging markets equity	8.00%	5.45%
Fixed income	20.00%	0.25%
Real assets	10.00%	4.00%
Private equity	8.00%	6.15%
Cash	1.00%	-0.50%
Total	**100%**	

ACTUARIAL ASSUMPTIONS

Valuation date	**June 30, 2015**
Measurement date	**June 30, 2015**
Actuarial cost method	**Entry age, normal**
Actuarial assumption:	
Discount rate	7.75%
Inflation	3.00%
Payroll growth	3.75%
Project salary increase	3.75-19.00% (1)
investment rate of return	7.75% (2)

(1) Depending on age, service, and type of employment, including inflation

(2) Net of pension plan investment expense, including inflation

PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

Mississippi State University	2016
1% Decrease (7.00%)	$642,727,341
Current Discount Rate (7.75%)	$487,619,653
1% Increase (8.75%)	$358,909,226

$32.1 million reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as shown at the top of this page.

ACTUARIAL ASSUMPTIONS

Actuarial assumptions – The total pension liability in the June 30, 2015 actuarial valuation was determined using the actuarial assumptions shown in the table to the right, applied to all periods included in the measurement.

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2016 with male rates set forward one year.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience report is dated May 4, 2015.

DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%). Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table above and to the left.

SENSITIVITY OF THE PROPORTIONATE SHARE OF THE NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The table above presents the University's proportionate share of the net pension liability, calculated using the discount rate of 7.75%, as well as what the IHL System's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.75%) or 1-percentage point higher (8.75%) than the current rate.

SCHEDULE OF PROPORTIONATE SHARE OF NET PENSION LIABILITY

Mississippi State University	2016	2015
Proportion of the net pension liability	3.15%	3.11%
Proportionate share of the net pension liability	$487,619,653	$377,668,592
Covered-employee payroll	$197,073,543	190,123,441
Proportionate share of the net pension liability as a percentage of its covered-employee payroll	247.43%	199.00%
PERS fiduciary net position as a percentage of the total pension liability	61.70%	67.00%

SCHEDULE OF PROPORTIONATE SHARE OF CONTRIBUTIONS

Mississippi State University	2016	2015
Proportionate share of contributions	$32,082,760	$30,812,946
Required contributions	(32,082,760)	(30,812,946)
Contribution deficiency (excess)	-	-
Covered-employee payroll	$203,700,062	$ 195,637,752
Contribution as a percentage of covered-employee payroll	15.75%	15.75%

PENSION PLAN FIDUCIARY NET POSITION

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

(B) ORP DEFINED CONTRIBUTION PLAN

The Optional Retirement Plan (ORP) was established by the Mississippi Legislature in 1990 to help attract qualified and talented institutions of higher learning faculty. The membership of the ORP is composed of teachers and administrators appointed or employed on or after July 1, 1990, who elect to participate in ORP and reject membership in PERS. The ORP provides funds at retirement for employees and in the event of death, provides funds for their beneficiaries, through an arrangement by which contributions are made to this plan. The current contribution rate of both the employee and the University are identical to that of the PERS defined contribution plan.

The ORP uses the accrual basis of accounting. Investments are reported at fair value, based on quoted market prices. Employees immediately vest in plan contributions upon entering the plan. The University's contributions to the ORP for the years ended June 30, 2016, 2015, and 2014 were $13,654,687, $12,478,307, and $11,590,077 respectively, which equaled its required contribution for each respective year.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION: JUNE 30, 2016

(1) Schedule of Proportionate Share of Net Pension Liability

This schedule presents historical trend information about the University's proportionate share of the net pension liability for its employees who participate in the PERS. The net pension liability is measured as the total pension liability less the amount of the fiduciary net position of the plan. Information related to years prior to 2015 is not available, therefore, trend information will be accumulated to display a ten-year presentation.

(2) Schedule of Proportionate Share of the University's Contributions

The required contributions and percentage of those contributions actually made are presented in the schedule. Information related to years prior to 2015 is not available, therefore, trend information will be accumulated to display a ten-year presentation.

(3) Changes in Assumptions and Benefit Terms

Changes of assumptions: Amounts reported for fiscal year 2016 reflect changes in assumptions since the last Measurement Date based on an actuarial experience study for the period July 1, 2010 to June 30, 2014. The experience study report is dated May 4, 2015. The change in TPL due to changes in actuarial assumptions is spread over the remaining service life of the entire PERS membership just like Plan experience.

Change of benefit terms: Amounts reported for fiscal year 2016 reflect no changes in benefit terms.

NOTE 14
DONOR RESTRICTED ENDOWMENTS

Expenditure as of June 30, 2016 and 2015 was ($892,730) and $2,044,758, respectively. These amounts are included in the accompanying statements of net position in "restricted - expendable for other purposes" and "restricted - expendable for scholarships and fellowships."

Most endowments operate on the total return concept as permitted by the Uniform Management of Institutional Funds Act (Sections 79 11 601 through 79 11 617, MS Code, Ann. 1972) as enacted in 1998. The annual spending rate for these endowments is 5% of the three year moving average market value.

NOTE 15
FEDERAL LOAN PROGRAM DISBURSEMENTS

The University distributed $116,191,575 and $108,069,472 for the years ended June 30, 2016 and 2015, respectively, for student loans through the U.S. Department of Education lending programs. These distributions and their related funding sources are included as cash flows from capital and noncapital financing activities in the statements of cash flows.

NOTE 16

WORKERS' COMPENSATION, UNEMPLOYMENT, AND TORT LIABILITY FUNDS

Several types of risk are inherent in the operation of an institution of higher learning. There are several methods in which the institution can mitigate the risks. One of these methods is the pooling of resources among the institutions. The University and the other member institutions have pooled their resources to establish professional and general liability trust funds. Funds have been established for Workers' Compensation, Unemployment, and Tort Liability.

The Workers' Compensation Program provides a mechanism for the institutions to fund and budget for the costs of providing worker compensation benefits to eligible employees. The program does not pay benefits directly to employees. Funds are set aside in trust and a third party administrator is utilized to distribute the benefits to eligible employees. Payments by the University to the Workers' Compensation Fund totaled approximately $1,241,729 and $1,135,296 for the fiscal year ended June 30, 2016 and 2015, respectively.

The Unemployment Trust Fund operates in the same manner as the Workers' Compensation Program. The Fund does not pay benefits directly to former employees. The Unemployment Fund reimburses the Mississippi Employment Security Commission for benefits that the Commission pays directly to former employees. Payments by the University to the Unemployment Trust Fund totaled approximately $271,106 and $254,129 for the fiscal year ended June 30, 2016 and 2015, respectively.

The Tort Liability Fund was established in accordance with Section 11 46 of Mississippi State Law. The Mississippi Tort Claims Board has authorized the Board of Trustees of State Institutions of Higher Learning (IHL Board) to establish a fund in order to self insure certain portions of its liability under the Mississippi Tort Claims Act. Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against public institutions. A maximum liability limit of $500,000 per occurrence is currently permissible. The IHL Board has authorized the Tort Liability Fund to acquire an educator's legal liability policy with a deductible of $1,000,000. Further, the IHL Board has designated that $1,000,000 be reserved from the IHL Tort Liability Fund Net Assets to be used towards any future payment of this insurance deductible. The IHL Tort Liability claims pool also purchases insurance premiums for fleet automobile policies and blanket public officials bond annually. The share of the annual payments to the Tort Liability Fund and the various insurance premiums paid by the University totaled approximately $985,054 and $1,100,161 for the fiscal years ended June 30, 2016 and 2015, respectively.

NOTE 17

AFFILIATED ORGANIZATIONS

The University has seven affiliated organizations that were evaluated in accordance with GASB Statement No. 61, The Financial Reporting Entity: Omnibus, which the University adopted on July 1, 2012. These organizations were formed exclusively for the benefit of the University and serve to promote, encourage, and assist with educational, scientific, literary, research, athletic, facility improvement, and service activities of the University and its affiliates. These organizations include the Mississippi State University Educational Building Corporation, Mississippi State University Foundation, Inc., Mississippi State University Alumni Foundation, Inc., Mississippi State University Research Technology Corporation, The Bulldog Club, Inc., The Bulldog Foundation, Inc., and Mississippi State University Alumni Association. These affiliated entities are audited separately and, with the exception of the Mississippi State University Foundation and Mississippi State University Educational Building Corporation, have not been included in these financial statements. Therefore, the financial statements include the operations of the University, the Mississippi State University Foundation, and the Educational Building Corporation. The Mississippi State University Foundation financial statements are presented discreetly following the University's financial statements. In accordance with paragraph 54a of GASB Statement No. 61, the Educational Building Corporation is reported as a blended component unit. Required condensed combining information is presented above.

Independent Auditors' Report

The Board of Directors
Mississippi State University Foundation, Inc.:

We have audited the accompanying consolidated financial statements of Mississippi State University Foundation, Inc. (the Foundation), which comprise the consolidated statements of financial position as of June 30, 2016 and 2015, and the related consolidated statements of activities, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Mississippi State University Foundation, Inc. as of June 30, 2016 and 2015, and the changes in their net assets and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

See accompanying notes to consolidated financial statements.

(1) Organization and Significant Accounting Policies

(a) Organization

Mississippi State University Foundation, Inc. (the Foundation) is a not-for-profit entity established to solicit and manage funds for the benefit of Mississippi State University (the University). The Foundation also manages funds for affiliates of the University, including Mississippi State University Alumni Association, Inc. and The Bulldog Club, Inc.

The Board of Trustees of the State of Mississippi Institutions of Higher Learning (IHL) provides oversight and governance for Mississippi's eight public higher education institutions. In reaction to a number of challenges arising at certain other institutions under its control, the IHL began more than ten years ago to exercise increased scrutiny and oversight of each institution's affiliated organizations. As a part of this effort, IHL expected each institution to reduce the number of affiliated foundations and organizations to the extent possible. As a result of this mandate, during the fiscal year 2015, the Mississippi State University Foundation, Inc. and the Mississippi State University Alumni Foundation, Inc. voted to merge into a single organization, with the Mississippi State University Foundation, Inc. being the surviving corporation. This merger was effected on July 1, 2015, at 12:01 a.m. As the MSU Alumni Foundation's sole asset was a noncontrolling interest in the investment pool discussed in note 1(g), the transaction was recorded in the consolidated financial statements of the Foundation as a decrease to net assets related to noncontrolling interests and an increase to temporarily and permanently restricted net assets.

(b) Basis of Accounting

The accompanying consolidated financial statements include the Foundation and the Mississippi State Investment Pool in which the Foundation has a controlling financial interest. These consolidated financial statements, which are presented on the accrual basis of accounting, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of net assets and transactions into three net asset classes – permanently restricted, temporarily restricted or unrestricted as follows:

Permanently restricted net assets – net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Generally, the donor of these assets permits the Foundation to use all or part of the income earned on related investments for general or specific purposes in support of the University.

Temporarily restricted net assets – net assets subject to donor-imposed stipulations that may or will be met by actions of the Foundation and/or the passage of time.

Unrestricted net assets – net assets that represent resources generated from operations or that are not subject to donor-imposed stipulations. Unrestricted net assets include contributions designated to a particular college or unit for which the use or purpose is unrestricted.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenditures are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, and grants are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions of intellectual property are based on its estimated fair value, considering the characteristics specific to the assets and estimated usage during the term of the agreement. Contributed goods and services are recorded as revenues and expenses in the consolidated statements of activities at estimated fair value.

Income from and realized and unrealized gains and losses on investments of permanently restricted net assets are reported as follows:

- as increases in permanently restricted net assets if the terms of the gift or the Foundation's interpretation of relevant state law require that gains be added to the principal of a permanent endowment fund; and
- as increases or decreases in temporarily restricted net assets in all other cases and released from restriction when appropriated for expenditure, except as described in note 7(d) for endowment funds whereby the fair value of the fund is less than the historical cost value.

(c) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The Foundation's investments are invested in various types of investment securities and in various companies across a variety of markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Foundation's consolidated financial statements.

(d) Restricted Cash

Funds held for an unaffiliated organization that retains control over the expenditures of such funds are classified as restricted cash in the consolidated statements of financial position with a corresponding amount in agency payable.

(e) Land, Buildings, and Equipment

Land, buildings, and equipment are stated at cost, if purchased, or at fair value on the date of gift, if donated. Depreciation of buildings and equipment, including assets acquired under capital leases, is provided on the straight-line method over the shorter of the estimated useful life of the assets or the term of the lease. The estimated useful lives for buildings are 30-40 years and furniture, fixtures, and equipment are 5-10 years.

The Foundation assesses potential impairment to its long-lived assets when there is evidence that events or changes in circumstances have made recovery of the carrying value of the assets unlikely. An impairment loss is recognized when the sum of the expected future undiscounted net cash flows is less than the carrying amount of the asset.

(f) Fair Value Measurement

Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical financial assets or liabilities that the Foundation has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the financial asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the financial asset or liability.

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The Foundation uses net asset value per share (NAV) or its equivalent as a practical expedient to estimate fair value, although NAV in many instances may not equal realizable value. The NAV per share or its equivalent was applied to certain investments that do not have readily determinable fair values. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do not occur in this limited secondary market, they may occur at discounts to the reported NAV. The fair value hierarchy requires the use of observable market data when available. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurements. The classification of assets and liabilities in the fair value hierarchy is not necessarily an indication of the risks or liquidity, but is based on the observability of the valuation inputs. Therefore, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

(g) Investments

Overall Investment Objective

The overall investment objective of the Foundation is to invest its assets in a prudent manner that will achieve a long-term rate of return sufficient to fund donor-designated directives and maintain each fund’s inflation-adjusted impact. The Foundation diversifies its investments among various asset classes incorporating multiple strategies and managers. Major investment decisions are authorized by the Foundation's Investment Committee, which oversees its investment program in accordance with an established investment policy.

Mississippi State Investment Pool

The Foundation, the University, and the MSU Bulldog Club, Inc. are participants in a joint venture, the Mississippi State Investment Pool (MSIP), whereby certain assets are pooled for investment purposes. The Mississippi State University Alumni Association, Inc. was added as a participant on March 2, 2015 and MSU Alumni Foundation ceased to participate, effective July 1, 2015, in the MSIP as a result of the merger discussed at note 1(a). The Foundation is the investment pool's managing member, manages the assets of the pool, and maintains separate accounts for each participant. Investment income (loss), gains and losses, and expenses of the MSIP are allocated to each participant based on their share of ownership of the MSIP. Due to the Foundation's controlling financial interest in the MSIP of approximately 89% and 84% as of June 30, 2016 and 2015, respectively, the Foundation has consolidated the MSIP, reflecting the noncontrolling interests of the other participants in the consolidated financial statements. As of June 30, 2016 and 2015, the Foundation's consolidated financial statements include net assets totaling $42,419,717 and $59,352,202, respectively, related to these noncontrolling interests. The Foundation recorded $(1,965,647) and $(438,482) of investment losses attributable to these noncontrolling interests for fiscal 2016 and 2015, respectively, which is reported in net investment income (loss).

Allocation of Investment Strategies

The Foundation invests in four broad asset classes: global fixed income, global equities, real assets, and diversifying strategies. Global fixed income investments consist of both interest rate sensitive and credit sensitive publicly-traded credit securities. Global equities consist of domestic and international equity securities, as well as a number of private equity and hedged equity strategies. The private equity funds employ buyout and venture capital strategies and focus on investments in turn-around and start-up situations. The hedged equity strategies include a long-short equity fund of funds. Real assets include investments in a timber management organization, mid-stream MLPs, and upstream energy investments. Diversifying strategies include a variety of nontraditional investments designed specifically to dampen portfolio volatility. These strategies may include investments in stock, bonds, put or call options, swaps, currency hedges, and other instruments. Private equity, real asset strategies, and diversifying strategies often require the estimation of fair values by the fund managers in the absence of readily determinable fair market values. Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held. Moreover, the fair values of the Foundation's interests in shares or units of these funds, because of liquidity and capital commitment terms that vary depending on the specific fund or partnership agreement, may differ from the fair value of the funds' underlying net assets. Short-term investments consists of cash held by the investment pool, held primarily for capital calls and reinvestments.

Basis of Reporting

Investments are reported at estimated fair value. If an investment is held directly by the Foundation and an active market with quoted prices exists, then the market price of an identical security is used as reported fair value. Reported fair values for shares in mutual funds registered with the U.S. Securities and Exchange Commission are based on share prices reported by the funds as of the last business day of the fiscal year. Fixed income securities are based on quoted market prices or other observable inputs such as quoted prices for similar assets or inputs corroborated by observable market data. The Foundation's interests in alternative investment funds are generally reported at the net asset value (NAV) reported by the fund managers, which is used as a practical expedient to estimate the fair value of the Foundation's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2016 and 2015, the Foundation had no plans or intentions to sell investments at amounts different from NAV. Properties held for investment are reported at estimated fair value based on periodic appraisals conducted by third-party appraisers who utilize the cost, sales comparison, and income capitalization approaches to estimate the fair value of the investments. The Foundation considers recent comparables, among other things, to adjust for any changes in fair value between the most recent appraisal date and year-end.

(h) Pledges

All unconditional promises to give are recorded at their estimated realizable value on a discounted basis using rates commensurate with the risks involved. Allowance is made for uncollectible pledges based upon management's judgment and analysis of specific accounts, past collection experience and other relevant factors.

(i) Split Interest Agreements

The Foundation accepts gifts subject to split interest agreements. These gifts may be in the form of gift annuities, charitable lead trusts, charitable remainder trusts, or perpetual trusts. At the time of receipt, a gift is recorded based upon the fair value of assets donated less any applicable liabilities. Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using appropriate discount rates (at June 30, 2016 and 2015 rates ranged from approximately 1% to 8%). For certain split interest agreements where the measurement objective is fair value, the discount rate is adjusted to a current market rate at each reporting date. The Foundation's estimated remainder interests in split interest agreements are classified as temporarily restricted or permanently restricted net assets based upon donor designations.

Externally managed trusts consist of irrevocable charitable remainder trusts and perpetual trusts whereby the Foundation is the beneficiary, not the trustee. The Foundation records these trusts at the present value of the estimated future cash receipts from the assets of the trust.

Present value of amounts due from externally managed trusts and liabilities under split interest agreements are classified as Level 3 fair value measurements.

Contribution revenue attributable to split interest agreements for the years ended June 30, 2016 and 2015 was $4,847,904 and $1,547,283, respectively.

(j) Income Taxes

The Foundation is a not-for-profit entity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been made. As of June 30, 2016 and 2015, there were no material uncertain tax positions.

(k) Liquidity

Assets are presented according to their nearness to cash and liabilities are presented according to their nearness to payment or use of cash.

(l) Recent Accounting Pronouncements

In May 2015, the FASB issued ASU No. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share* (or Its Equivalent) (ASU 2015-07). This ASU eliminates the requirement to categorize investments in the fair value hierarchy if their fair value is measured at NAV per share (or its equivalent) using the practical expedient as discussed in FASB Subtopic 820-10. Retrospective application to all prior periods presented in the notes to the financial statements is required. The Foundation early adopted the ASU as of June 30, 2016 and retrospectively applied to all periods presented.

The FASB issued ASU No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*, in August 2016. ASU 2016-14 changes how not-for-profit entities, report net asset classes, expenses and liquidity in their financial statements. The new standard permits early adoption and is effective for annual reporting periods beginning after December 15, 2017. The Foundation will implement the provision of ASU 2016-14 as of July 1, 2018.

(m) Subsequent Events

The Foundation evaluated all events or transactions that occurred after June 30, 2016, through October 31, 2016, the date the consolidated financial statements were available to be issued. During this period, there were no material subsequent events that required accounting or disclosure recognition in the Foundation's June 30, 2016 consolidated financial statements.

(2) Investments

Investments are summarized as follows as of June 30, 2016 and 2015:

	2016	2015
Short-term investments	$ 12,662,623	4,677,914
Global fixed income	99,791,850	100,020,834
Global equities	147,058,787	167,987,738
Real assets	51,271,823	51,424,962
Diversifying strategies	69,854,199	76,906,108
Contributed properties held for investment	28,069,571	30,980,754
Cash-surrender value of life insurance	1,864,423	1,877,510
	$ 410,573,276	433,875,820

Total investments include a portion of an investment vehicle controlled by the Foundation (note 1(g)). These investments include the amounts related to noncontrolling interests included within the accompanying consolidated financial statements totaling $42,419,717 and $59,352,202 as of June 30, 2016 and 2015, respectively.

The Foundation has entered into various split interest agreements, including charitable remainder unitrusts and charitable gift annuities, whereby the Foundation serves as trustee. The assets held under these split interest agreements are included in investments at June 30, 2016 and 2015 with an approximate fair value of $5,773,000 and $7,279,000, respectively.

The following schedule summarizes net investment income (loss) in the consolidated statements of activities for the years ended June 30, 2016 and 2015:

		2016	2015
Dividends and interest (net of expenses of $600,464 and $548,745, respectively)	$	8,495,001	10,256,776
Net realized and unrealized losses		(22,795,076)	(11,965,959)
	$	(14,300,075)	(1,709,183)

(3) Pledges Receivable

Pledges receivable, net, are summarized as follows at June 30, 2016 and 2015:

		2016	2015
Unconditional promises expected to be collected in:			
Less than one year	$	12,680,121	10,152,495
One year to five years		25,040,731	22,738,141
Over five years		6,688,540	8,517,019
		44,409,392	41,407,655
Less unamortized discount (rates ranging from 1% to 5%)		(5,129,317)	(5,148,849)
		39,280,075	36,258,806
Less allowance for uncollectible pledges		(861,657)	(826,511)
	$	38,418,418	35,432,295

(4) Land, Buildings, and Equipment

Land, buildings, and equipment are summarized as follows at June 30, 2016 and 2015:

		2016	2015
Land and buildings	$	12,147,987	12,109,056
Furniture, fixtures, and equipment		8,541,934	8,509,452
		20,689,921	20,618,508
Less accumulated depreciation		(11,721,366)	(11,283,205)
	$	8,968,555	9,335,303

(5) Net Assets

Temporarily restricted and permanently restricted net assets at June 30, 2016 and 2015 were available for the following purposes:

		2016		2015	
		Temporarily restricted	Permanently restricted	Temporarily restricted	Permanently restricted
Specified college programs	$	23,579,108	108,408,786	37,750,863	106,875,074
Student financial aid		36,241,617	149,636,756	34,245,694	128,995,396
Research		1,031,166	16,427,654	2,645,806	15,148,942
Faculty and staff support		5,213,478	49,882,310	8,668,713	49,330,080
Facilities		9,529,267	7,005,463	13,030,936	6,985,463
Other		5,786,621	8,755,559	3,565,100	8,029,601
Total	$	81,381,257	340,116,528	99,907,112	315,364,556

(6) Fair Value Measurement

The following tables summarize the Foundation's financial instruments by major category in the fair value hierarchy as of June 30, 2016 and 2015:

	2016					
	Level 1	**Level 2**	**Level 3**	**Total**	**Redemption or liquidation**	**Days' notice**
Recurring:						
Short-term investments	$ 12,662,623	—	—	12,662,623	Daily	1
Global fixed income:						
Interest-rate sensitive	59,272,948	11,779,926	—	71,052,874	Daily	1
Credit sensitive	28,738,976	—	—	28,738,976	Daily	1
Total global fixed income	88,011,924	11,779,926	—	99,791,850		
Global equities:						
Domestic	50,985,254	7,941,732	—	58,926,986	Daily	1-3
Non-U.S.	66,648,843	—	—	66,648,843	Daily	1
Total global equities	117,634,097	7,941,732	—	125,575,829		
Contributed properties held for investment	—	—	28,069,571	28,069,571	(2)	(2)
Cash-surrender value of life insurance	—	1,864,423	—	1,864,423	(3)	(3)
	$ 218,308,644	21,586,081	28,069,571	267,964,296		
Investments at net asset value				142,608,980		
Total investments				$ 410,573,276		
Present value of amounts due from externally managed trusts	$ —	—	46,924,276	46,924,276		

	2015					
	Level 1	Level 2	Level 3	Total	Redemption or liquidation	Days' notice
Recurring:						
Short-term investments	$ 4,677,914	—	—	4,677,914	Daily	1
Global fixed income:						
Interest-rate sensitive	59,171,161	8,206,979	—	67,378,140	Daily	1
Credit sensitive	32,642,694	—	—	32,642,694	Daily	1
Total global fixed income	91,813,855	8,206,979	—	100,020,834		
Global equities:						
Domestic	52,143,403	5,371,865	—	57,515,268	Daily	1-3
Non-U.S.	89,743,802	—	—	89,743,802	Daily	1
Total global equities	141,887,205	5,371,865	—	147,259,070		
Diversifying strategies	6,140,410	—	—	6,140,410	(1)	(1)
Contributed properties held for investment	—	—	30,980,754	30,980,754	(2)	(2)
Cash-surrender value of life insurance	—	1,877,510	—	1,877,510	(3)	(3)
	$ 244,519,384	15,456,354	30,980,754	290,956,492		
Investments at net asset value				142,919,328		
Total investments				$ 433,875,820		
Present value of amounts due from externally managed trusts	$ —	—	40,230,993	40,230,993		

(1) Generally, MSIP's investments in diversifying strategies (or hedge funds) allow early redemption for specified fees. With the exception of the Level 1 diversifying strategy investment, which has daily redemption, the terms and conditions upon which an investor may redeem an investment vary, usually with the majority requiring 3 to 180 days notice after the initial lock up period, which may be from one to three years. At June 30, 2016 and 2015, the Foundation had no diversifying strategy investments for which an otherwise redeemable investment was not redeemable.

(2) Bulldog Forest properties totaling approximately $19,700,000 and $19,500,000 at June 30, 2016 and 2015, respectively, may be held in perpetuity or liquidated at the Foundation's discretion. Other properties are for immediate sale.

(3) The Foundation currently has no plans to surrender these policies prior to maturity, but cash would be realized in a minimal amount of time if an insurance policy is cancelled.

The following table presents the Foundation's activities for the years ended June 30, 2016 and 2015 for contributed properties held for investment classified as Level 3:

		2016	2015
Balance, beginning of year	$	30,980,754	31,188,074
Acquisitions		1,429,677	2,470,860
Dispositions		(5,815,100)	(1,290,064)
Net realized and unrealized gains (losses)		1,474,240	(1,388,116)
Balance, end of year	$	28,069,571	30,980,754

For the years ended June 30, 2016 and 2015, the changes in present value of amounts due from externally managed trusts classified as Level 3 are as follows:

		2016	2015
Balance, beginning of year	$	40,230,993	41,317,126
Contributions		7,816,516	—
Terminations		—	(951,478)
Change in valuation		(1,123,233)	(134,655)
Balance, end of year	$	46,924,276	40,230,993

(a) Pledges Receivable

Unconditional promises to give are recognized initially at fair value as contributions revenue in the period such promises are made by donors. Fair value is estimated giving consideration to anticipated future cash receipts (after allowance is made for uncollectible contributions) and discounting such amounts at a risk-adjusted rate commensurate with the duration of the donor's payment plan. These inputs to the fair value estimate are considered Level 3 in the fair value hierarchy. In subsequent periods, the discount rate is unchanged and the allowance for uncollectible contributions is reassessed and adjusted if necessary. Amortization of the discounts is recorded as additional contribution revenue.

(b) Other Receivables and Payables

The carrying amounts of receivable from the MSU Alumni Association, note receivable, other receivables, accounts payable and accrued liabilities, and payable to Mississippi State University approximate fair value because of the short-term maturity of these instruments.

(c) Liabilities under Split Interest Agreements

Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using appropriate discount rates at the date of contribution.

(7) Endowment

The Foundation's endowment consists of nearly 1,400 individual donor-restricted endowment funds established for a variety of purposes. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors of the Foundation (the Board) to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

(a) Interpretations of Relevant Law

The Board has interpreted the State of Mississippi Code of 1972 §79-11-701 through §79-11-719 cited as the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as requiring the Board to use reasonable care, skill, and caution as exercised by a prudent investor, in considering the investment management and expenditures of endowment funds. In accordance with UPMIFA, the Board may expend so much of an endowment fund's net appreciation as the Board determines to be prudent for the uses and purposes for which the endowment fund is established, consistent with the goal of conserving the long-term purchasing power of the endowment fund. The Board considered the following factors in making its determination:

1) The purpose of the Foundation
2) The intent of the donor of the endowment fund
3) The terms of the applicable instrument
4) The long-term and short-term needs of the Foundation and the University in carrying out their purposes
5) General economic conditions
6) The possible effect of inflation or deflation
7) The other resources of the Foundation and the University
8) Perpetuation of the endowment

As a result of this interpretation, the Board classifies as permanently restricted net assets (a) the original value of gifts donated to a permanent endowment and (b) the original value of subsequent gifts to the permanent endowment. The remaining portion of the donor-restricted endowment fund that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

Where the Board designates unrestricted funds to function as endowments, they are classified as unrestricted net assets.

(b) Spending Policy

The Foundation's spending policy is designed to provide for positive growth in the market value of its endowment, net of distributions, over an extended period of time. In establishing this policy, the Board considered the long-term expected return of the endowment investment pool and the goal of maintaining the purchasing power of the endowment asset. Over the long-term, the current spending policy is designed to return a net positive gain in market value (growth) after spendable transfers.

The annual rate for spendable transfers, distributed annually (semi-annually for 2015), is 4% of the investment pool's average unit value over the 36-month period ending September 30 of the previous year. In addition, each endowed fund is assessed an annual 1.50% administrative fee. This fee covers administrative costs related to the operations of the MSIP, and is a portion of the funding mechanism for the operations of the Foundation.

(c) Investment Policy

The Foundation's investment objectives are to provide an annualized real (adjusted for inflation) rate of return of 5.50% or more in order to preserve, or increase, the purchasing power of endowment capital, while generating an income stream to support activities of the funds held for the colleges and units of the University. This policy is designed to tolerate volatility in short and intermediate-term performance. The endowment assets are invested as a part of the investment pool, as discussed in note 1(g).

To satisfy its long-term rate of return objectives, the pool employs a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation, through the MSIP, targets a diversified asset allocation that includes global fixed income, global equities, real assets, and diversifying strategies to achieve long-term objectives within prudent risk constraints.

Endowment net asset composition by type of fund as of June 30, 2016 and 2015:

	2016			
	Unrestricted	**Temporarily restricted**	**Permanently restricted**	**Total**
Donor-restricted endowment funds	$ (2,568,829)	30,930,493	280,205,092	308,566,756
Board-designated endowment funds	19,749,177	—	—	19,749,177
Total funds	$ 17,180,348	30,930,493	280,205,092	328,315,933

	2015			
	Unrestricted	**Temporarily restricted**	**Permanently restricted**	**Total**
Donor-restricted endowment funds	$ (563,121)	48,813,760	257,042,208	305,292,847
Board-designated endowment funds	21,574,109	—	—	21,574,109
Total funds	$ 21,010,988	48,813,760	257,042,208	326,866,956

Changes in endowment net assets for the fiscal years ended June 30, 2016 and 2015:

		2016			
		Unrestricted	**Temporarily restricted**	**Permanently restricted**	**Total**
Endowment net assets, beginning of year	$	21,010,988	48,813,760	257,042,208	326,866,956
Investment return:					
Investment income		827,238	3,640,584	—	4,467,822
Net appreciation (depreciation) (realized and unrealized)		(4,046,839)	(15,668,374)	1,412,803	(18,302,410)
Total investment return		(3,219,601)	(12,027,790)	1,412,803	(13,834,588)
Contributions		—	—	14,801,649	14,801,649
Appropriation of endowment assets for expenditure		(759,733)	(14,234,163)	—	(14,993,896)
Change in split interest agreements		148,694	202,004	1,115,889	1,466,587
Change due to merger with Alumni Foundation		—	8,176,682	5,832,543	14,009,225
Endowment net assets, end of year	$	17,180,348	30,930,493	280,205,092	328,315,933

	2015			
	Unrestricted	**Temporarily restricted**	**Permanently restricted**	**Total**
Endowment net assets, beginning of year	$ 21,375,410	61,010,423	249,420,706	331,806,539
Investment return:				
Investment income	906,446	3,709,982	—	4,616,428
Net appreciation (depreciation) (realized and unrealized)	(672,143)	(3,554,020)	17,217	(4,208,946)
Total investment return	234,303	155,962	17,217	407,482
Contributions	—	—	5,188,428	5,188,428
Appropriation of endowment assets for expenditure	(855,975)	(12,564,623)	—	(13,420,598)
Change in split interest agreements	257,250	211,998	2,415,857	2,885,105
Endowment net assets, end of year	$ 21,010,988	48,813,760	257,042,208	326,866,956

(d) Funds with Deficiencies

As a result of market declines for certain recently established endowments, the fair value of certain donor-restricted endowments was less than the historical cost value (original gift/book value) of such funds (underwater) by $2,568,829 and $766,278 as of June 30, 2016 and 2015, respectively.

These losses have been recorded as reductions in unrestricted net assets in accordance with U.S. generally accepted accounting principles. Future gains will be used to restore this deficiency in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets.
