## MANAGEMENT'S DISCUSSION & ANALYSIS

he following Management's Discussion and Analysis (MD&A) is provided to allow an overview of Mississippi State University's financial position and performance. The discussion focuses on the reasons for material change as they relate to specific categories in the statements and is intended to be read in conjunction with the financial statements and accompanying note disclosures. This MD&A presents financial information for the fiscal year ended June 30, 2019, and comparative data for the fiscal year ended June 30, 2018, to aid in the analysis of the financial performance for the institution. Those financial statements, the accompanying notes and this discussion are the responsibility of management.

#### OVERVIEW OF THE INSTITUTION

Mississippi State University (the "University") is designated by the Carnegie Commission on Higher Education as a doctoral university with very high research activity. The University began as The Agricultural and Mechanical College of the State of Mississippi, one of the national Land Grant Colleges established after Congress passed the Morrill Act in 1862. It was created by the Mississippi Legislature on February 28, 1878, to fulfill the mission of offering training in "agriculture, horticulture and the mechanical arts...without excluding other scientific and classical studies, including military tactics". In 1887 Congress passed the Hatch Act, which provided for the establishment of the Agricultural Experiment Station in 1888. Two other pieces of federal legislation provided funds for extending the mission of the College: in 1914, the Smith Lever Act called for "instruction in practical agriculture and home economics to persons not attendant or resident," thus creating the state wide effort which led to Extension offices in every county of the State; and, in 1917, the Smith Hughes Act which provided for the training of teachers in vocational education.

The University now comprises the following academic units: the College of Agriculture and Life Sciences including the School of Human Sciences; the College of Architecture, Art and Design; the College of Arts and Sciences; the College of Business, including the Adkerson School of Accountancy; the College of Education; the Bagley College of Engineering, including the Swalm School of Chemical Engineering; the College of Forest Resources; the Shackouls Honors College; the Office of the Graduate School; and the College of Veterinary Medicine. In addition, the Mississippi Agricultural and Forestry Experiment Station operates 12 branch stations and 4 research and extension centers throughout the State of Mississippi, conducts research in a variety of areas and assists in the University's teaching and service functions. Finally, the Mississippi State University Extension Service offers programs and services to the people of the State of Mississippi through campus and county offices and personnel.

Mississippi State University operates an off campus degree-granting center in Meridian where both undergraduate and graduate programs are offered and a program center at the Stennis Space Center. In cooperation with the U.S. Army Engineer Waterways Experiment Station, the College of Engineering offers the Master of Science degree to qualified students in Vicksburg.

Mississippi State University offers more than 180 degrees, which includes 15 master's degrees in 60 programs, an educational specialist degree, doctoral degrees in 36 programs, and 7 certificates. The University had an enrollment of 21,974 students as of the fall of 2018 and employs 5,019 employees including 1,203 full time faculty and 224 part time faculty.

#### STATEMENT OF NET POSITION

The Statement of Net Position presents the financial position of the University at the end of the fiscal year. This statement reflects the assets, deferred outflows, liabilities, deferred inflows and net position of the

	FY 2019	FY 2018	Difference	Percentage
ASSETS AND DEFERRED OUTFLOWS:				
Current Assets	\$276,967,480	\$228,925,446	\$48,042,034	21%

University as of the fiscal year ended June 30, 2019 and is prepared under the accrual basis of accounting. Revenues and assets are recognized when goods and services are provided, and expenses and liabilities are recognized when goods and services are received, regardless of when cash is exchanged. It is also important to note both assets and liabilities are presented as current and noncurrent. This distinction allows readers to determine the availability of assets to continue current operations and also provides a longterm perspective. Likewise, the reader is also able to determine from the presentation of liabilities the current obligations due within one year, as well as, future obligations due more than one year from the date of the statement. Net position is broken down into three categories: (1) net invested in capital assets represents the historical cost of property and equipment reduced by the balance of related debt outstanding and depreciation expense charged over the years; (2) the restricted component of net position relates to assets with constraints imposed by third parties; (3) and the unrestricted component of net position can be used at the discretion of University administration within the bounds of state law. Additionally, assets within the restricted component are either nonexpendable, as in the case of endowment gifts to be held in perpetuity, or expendable, as in the case of funds for scholarships, research, or other purposes.

The University's net position increased by \$71.2 million in fiscal year 2019. This sizable gain was spurred by material increases in cash, additions to capital assets, including a large capital gift, accompanied by a reduction in the pension liability.

Total assets grew by almost \$85.5 million aided by a \$48 million increase in cash, a \$25.7 million increase in capital assets and a \$13.4 million gift from the MSU Foundation which partially funded the construction of the new Engineering and Science Complex. The surge in cash was due in large part to strong fiscal results for both the Starkville campus and the School of Veterinary Medicine, increasing balances for Student Housing, and Athletics' receipt of the Southeastern Conference revenue distribution at fiscal year-end. Cash reserves were also bolstered by the rise in short-term rates which led to improved investment returns. The surge in total assets was also aided by the net addition of \$25.7 million in capital assets. Those additions included the completion of a major renovation to Dudy Noble Field and new construction on an Engineering and Science Complex and Animal and Diary Science Building along with other significant projects which will be detailed in the Capital Assets and Debt Administration section of this document.

Deferred outflows of Resources experienced a sharp decline related to our net pension liability. Specific items associated with this change include: the deferred outflow between actual and expected investment experience fell \$5.3 million, the change in our proportionate share of the liability diminished by \$7.0 million and changes in assumption led to a \$11.4 million decline in the deferred outflows balance.

Total liabilities declined marginally overall in fiscal year 2019. The change is generally reflective of a \$7.6 million decrease in the University's net pension liability and annual payments on outstanding bonds. All other liability balances remained materially the same.

#### STATEMENTS OF REVENUES, EXPENSES AND CHANGE IN NET POSITION

The Statement of Revenues, Expenses and Changes in Net Position represents the revenues earned and the expenses incurred during the year, regardless of when cash is received or disbursed. Activities in this statement are presented as either operating non-operating. Operating revenues are recorded in exchange for providing goods and services. Operating expenses are incurred as a result of normal operations of the University but also include depreciation on capital assets. The University relies on state appropriations, gifts and investment income to support day-to-day operations. However, those revenue categories are required by the Government Accounting Standards Board to be classified as non-operating revenues. Nonoperating expenses include capital financing costs and loan cancellation expenses.

Operating revenues increased \$35.9 million (around 7 percent) in fiscal year 2019 fueled in part by a 4 percent increase in tuition and a small enrollment increase. Revenue from federal contracts likewise contributed significant gains of \$18.7 million or 17 percent. Auxiliary revenue grew by 4 percent (\$3.8 million), primarily due to an 8 percent growth in Student Housing revenue accompanied by a 7 percent surge in Sales and Services of educational departments.

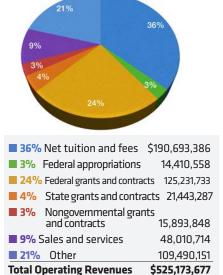

Total operating expenses showed a slight

#### CONDENSED STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION **FY 2019 FY 2018 Difference** Percentage **Total Operating Revenues** \$525.173.677 \$489,245,610 \$35.928.067 7% **Total Operating Expenses** 735,822,067 709,225,861 26,596,206 4% Operating Income (Loss) (\$210,648,390) (\$219,980,251) (\$9,331,861) -4% Total Nonoperating Revenues (Expenses), Net 248,802,962 231,744,605 17.058.357 7% Income (Loss) Before other Revenues, Expenses, \$38,154,572 \$11,764,354 \$26,390,218 224% **Gains and Losses** Other revenues, expenses, gains and losses 33,057,877 17,833,392 15,224,485 85% **Change in Net Position** \$41,614,703 141% \$71,212,449 \$29,597,746 7% Net Position - Beginning of Year 482,359,153 452,761,407 29,597,746 Net Position - End of Year \$71,212,449 \$553,571,602 \$482,359,153 15%

#### MANAGEMENT'S DISCUSSION & ANALYSIS

#### OPERATING REVENUES, FY 2019

increase overall in fiscal year 2019. Though several operating expense categories increased, the sharp decrease in pension expense netted to produce a small increase in total. Salaries increased \$12.9 million (4 percent)primarily due to raises provided to faculty and staff. Though salaries increased, Fringe Benefits decreased due to a \$20 million (55 percent) decline in pension expense recognized. Travel expenses were down by \$1.6 million (10 percent); however, commodities expense rose almost \$4.8 million (14 percent). The University's operating expenses grew only 4 percent overall, which is well behind operating revenue gains of 7 percent.

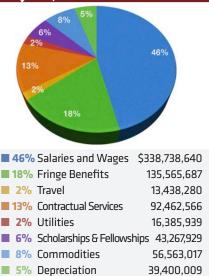

Net non-operating revenues and expenses increased by \$17 million (7 percent) behind strong gains for gifts and grants and investment income. Capital grants and gifts reflected a material increase due to a \$13.4 million gift from the MSU Foundation which partially funded the new Engineering and Science Complex. State Appropriations for capital purposes likewise showed a significant increase of \$4.9 million.

Gains for the fiscal year collectively netted \$71.2 million, which reflects a strong financial fiscal year.

#### STATEMENTS OF CASH FLOWS

The Statement of Cash Flows must also be evaluated when considering the financial condition of the University and its ability to

# OPERATING EXPENSES BY OBJECT, FY 2019

\$735,822,067

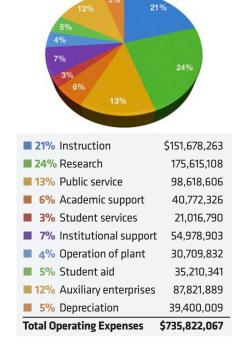

Total Operating Expenses

meet financial obligations over time. This statement presents information related to cash inflows and outflows summarized in the categories of operating activities, noncapital financing activities, capital and related financing activities and investing activities. Its purpose is to assist in the evaluation of the institution's ability to meet its obligations as they come due and its need for external financing. Cash flows from operating activities show the net cash used by the operating activities of the University. Cash flows from capital financing activities include all plant funds and related long term debt activities. Cash flows from investing activities display the use of cash and cash equivalents to purchase investments. Cash flows from noncapital financing activities are those not covered in other sections.

Net cash used for operating activities increased by 6 percent in fiscal year 2019. Tuition and fees provided \$14.3 million more cash than in FY18 along with modest gains in Grants and Contracts, Sales and Services, Student Housing and Athletics. Nevertheless, substantial increases in cash used for Payments to Suppliers, Utilities and Scholarships netted a higher cash usage than in comparison to the previous year.

Cash provided by noncapital financing activities rose 6 percent essentially due to the \$13.4 million capital gift discussed previously. Collections of State Appropriations remained

# OPERATING EXPENSES BY FUNCTION, FY 2019

substantially the same.

Cash used by financial activities reflected gains due mainly due to the refunding of debt in fiscal year 2018, which inflated the Proceeds from Capital Debt and Principal Paid on Capital Debt in that year.

Cash received from investing rose by \$1.9 million aided by increased Proceeds from the Sales and Maturities of Investments and \$1.5 million less in investments purchased.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

As of June 30, 2019 and 2018, the University had \$1.1 billion and \$1.0 billion invested in capital assets, net of accumulated depreciation of \$568.8 million and \$536.9 million, respectively. Depreciation expense totaled \$39.4 million and \$34.6 million for fiscal years 2019 and 2018, respectively.

## THE FOLLOWING NEW CONSTRUCTION PROJECTS WERE COMPLETED IN FISCAL YEAR 2019:

- South Campus Entrance
- Library Expansion

#### **MAJOR RENOVATIONS WERE COMPLETED FOR:**

- · Davis Wade Stadium
- Lee Hall
- Library Exhibit Hall
- · Lloyd Ricks

6 CONSOLIDATED FINANCIAL REPORT, FY 2019

#### **ENROLLMENT**

Total enrollment for the fall 2018 semester was 21,974 students, which was a slight increase of 91 students over the fall of 2017 semester when 21,883 students were enrolled. This was a smaller enrollment increase compared to the previous year. Mississippi residents accounted for 63% of the total enrollment in fall 2018 and for 64% of total enrollment for fall 2017. Enrollment totals are unduplicated and include all campuses of the University.

#### **DEGREES AWARDED**

A total of 4,959 degrees were awarded in 2018-2019: 3,911 undergraduate and 1,048 graduate. A breakdown by college is shown in the accompanying table. Information from 2017-2018 is included for comparison.

#### FINANCIAL SUMMARY AND OUTLOOK

Mississippi State University experienced a strong financial position in FY 2019 and strong enrollment growth for the last several years including fall 2019. For the fifth year in a row, enrollment increased resulting in a record number of students during fall 2019. The completion of the multi-million-dollar College View student apartment complex and multi-million-dollar completion of a new Animal and Dairy Sciences Building combined with the ongoing construction of a new multi-million-dollar parking garage and new multi-million-dollar Engineering and Science Complex are indications of continued growth and improvements at MSU.

After three years of economic uncertainty and appropriation cuts, state revenues exceeded estimates during FY 2018, FY 2019, and FY 2020 and, at present, has exceeded all monthly revenue estimates. As a result, Mississippi State University experienced a modest increase in state appropriations for fiscal year 2020.

MSU will continue to face funding obstacles in the future due to the continued uncertainty surrounding the timing and speed of economic recovery. However, the leadership's focus and flexibility combined with the dedication of the University's employees have positioned the University to weather any potential storms. These efforts continue to be supported by rising enrollment and Mississippi State University remains committed to a long-term financial plan that will sustain the university and allow it to continue to provide world-class teaching,

	FY 2019	FY 2018	Difference	Percentage

# STATE

#### **NOTES TO FINANCIAL STATEMENTS**

#### NOTE 1: Summary of Significant Accounting Policies (a) Nature of Operations

Mississippi State University (the University) is a comprehensive, doctoral degree granting university offering to a diverse and capable student body, a wide range of opportunities and challenges for learning and growth; to the world of knowledge, vigorous and expanding contribution in research, discovery, and application; and to the State of Mississippi (the State) and its people in every region, a variety of expert services.

#### (B) REPORTING ENTITY

The Mississippi Constitution was amended in 1943 to create a separate legal entity and establish a Board of Trustees of State Institutions of Higher Learning (Board). This constitutional Board provides management and control of Mississippi's system of universities. The University is a member (department) of the State of Mississippi Institutions of Higher Learning (IHL System).

Through its member universities, the IHL System serves the state, national, and international communities by providing its students with academic instruction, by conducting research and other activities that advance fundamental knowledge, and by disseminating knowledge to the people of the State and throughout the world.

The current twelve Board members of the IHL System were appointed by the Governor and approved by the Senate for twelve-year terms as follows: one from each of the seven congressional districts, one from each of the three Supreme Court Districts, and two appointed from the state at large. The Mississippi Constitution was amended in 2003 to change the length of terms and appointment districts for Board members. New appointments will occur from three current Supreme Court districts for terms of nine years. The amendment provides for these new appointments and tenures to be gradually implemented. Full implementation occurred in 2012.

The University's financial statements include the accounts of the Mississippi State University Educational Building Corporation, an educational building corporation and a nonprofit corporation incorporated in the State of Mississippi established in accordance

with Section 37 101 61 of the Mississippi Code Annotated of 1972. The purpose of this corporation is for the acquisition, construction and equipping of facilities and land for the University.

In accordance with GASB Statement Nos. 14 and 61, this educational building corporation is deemed a component unit of the State of Mississippi Institutions of Higher Learning and is included as a blended component unit in the general-purpose financial statements.

The State of Mississippi Institutions of Higher Learning is considered a component unit of the State of Mississippi reporting entity.

Legally separate, tax exempt organizations whose activities primarily support members of the IHL System, which are component units of the IHL System reporting entity, are considered potential component units of the State. See note 17 for additional information.

#### (C) BASIS OF ACCOUNTING

The financial statements of the University have been prepared in accordance with GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities. The University is reporting as a special-purpose government engaged in business-type activities. In accordance with business-type activity reporting, the University presents management's discussion and analysis, statements of net position, statements of revenues, expenses and changes in net position, statements of cash

flows and notes to the financial statements. The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred. All significant transactions among departments, campuses, and auxiliary units of the University have been eliminated.

Grant and contract revenues, which are received or receivable from external sources, are recognized as revenues to the extent of related expenses or satisfaction of eligibility requirements. State appropriations are recognized as non-operating revenues when eligibility requirements are satisfied.

#### (D) USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The University's investments are invested in various types of investment securities within various markets. Investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the

near term and that such changes could materially affect the amounts reported in the University's financial statements.

#### (E) CASH EOUIVALENTS

The University considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

#### (F) SHORT-TERM INVESTMENTS

Short term investments are investments that are not cash equivalents but mature within the next fiscal year.

#### (G) ACCOUNTS RECEIVABLE, NET

Accounts receivable consist of tuition and fee charges to students. Accounts receivable also include amounts due from federal and state governments, and nongovernmental sources, in connection with reimbursement of allowable expenses made pursuant to the University's grants and contracts. Accounts receivable are recorded net of an allowance for doubtful accounts.

#### (H) STUDENT NOTES RECEIVABLE. NET

Student notes receivable consist of federal, state, and institutional loans made to students for the purpose of paying tuition and fee charges. Loan balances expected to be paid during the next fiscal year are presented on the statements of net position as current assets. Those balances that are either in deferment status or expected to be paid back beyond the next fiscal year are presented as noncurrent assets on the statement of net position.

#### (I) INVENTORIES

Inventories consist of central supply inventories and storeroom inventories. These inventories are generally valued at the lower of cost or market, on the first in, first out (FIFO) basis.

#### (J) PREPAID EXPENSES

Recorded items consist of expenditures that are related to projects, programs, activities, or revenues of future fiscal periods.

#### (K) RESTRICTED CASH AND CASH EQUIVALENTS

Cash and cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other noncurrent assets, are classified as noncurrent assets in the statement of net position.

#### (L) ENDOWMENT INVESTMENTS

Endowment investments are generally subject to the restrictions of donor gift instruments. They include donor-restricted endowments, which are funds received from a donor with the restrictions that only the income is to be utilized, and funds functioning as endowments, which are funds established by the governing board to function similar to an endowment fund but may be expended at any time at the discretion of the governing board.

#### (M) OTHER LONG-TERM INVESTMENTS

Substantially all investments are reported at fair value. Unrealized gains (losses) on the carrying value of investments are reported as a component of investment income in the statements of revenues, expenses, and changes in net position.

#### (N) INVESTMENT VALUATION

GASB Statement No. 72 enhances financial comparability of governmental statements by requiring fair value measurement for certain assets and liabilities using a consistent definition and accepted valuation techniques. The standard establishes a hierarchy of inputs used to measure fair value that prioritizes the inputs into three categories -

Level 1, Level 2 and Level 3 inputs - considering the relative reliability of the inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted (unadjusted) prices in active markets for identical financial assets or liabilities that the IHL System has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the financial asset or liability, either directly or indirectly;
- Level 3 inputs are unobservable inputs for

the financial asset or liability.

The level in the fair value hierarchy in which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The categorization of investments within the hierarchy is based upon the pricing transparency of the instrument and should not be perceived as the particular investment risk.

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified as Level 2 of the fair value hierarchy are subject to pricing by an alternative pricing source due to lack of information available by the primary vendor. There are no investments classified in Level 3.

#### (O) CAPITAL ASSETS

Capital assets are recorded at cost at the date of acquisition, or, if donated, at fair value at the date of donation. For movable property, the University's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life greater than one year. Renovations to buildings and improvements other than buildings that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. Depreciation is computed using the straight line method over the estimated useful life of the asset and is not allocated to the functional expenditure categories. See note 6 for additional details concerning useful lives and salvage values. The University uses the composite method for library book depreciation if the books are considered to have a useful life of greater than

# **ESTATE**

## NOTES TO FINANCIAL STATEMENTS

one year. Expenditures for construction in progress are capitalized as incurred. Interest expense relating to construction is capitalized net of interest income earned on resources set aside for this purpose if material.

#### (P) DEFERRED INFLOWS AND OUTFLOWS

The University has deferred inflows of resources. The deferred inflows of resources are an acquisition of net assets by the University that is applicable to a future reporting period and include pension and OPEB related deferred inflows and deferred amounts on debt refunding.

The University has deferred outflows of resources. The deferred outflows of resources are consumption of net assets by the University that are applicable to a future reporting period and include the unamortized amounts for losses on the refunding of bond debt, pension, and OPEB related deferred outflows, and beneficial interests in irrevocable trusts.

#### (O) NET PENSION AND OPEB LIABILITIES

For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, and OPEB and OPEB expense, respectively, information about the fiduciary net position of the University's proportionate share of the liability for pension and OPEB, and additions to/deductions from the plans' fiduciary net positions have been determined on the same basis as they are reported by the Public Employees' Retirement System of Mississippi (PERS) and the State and School Employees' Life and Health Insurance Plan (OPEB Plan). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

#### (R) ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Recorded items consist of amounts owed to vendors, contractors, or accrued amounts such as interest, wages, and salaries.

#### (S) COMPENSATED ABSENCES/ACCRUED LEAVE

Twelve month employees earn annual personal leave at a rate of 12 hours per month for zero to three years of service; 14 hours

per month for three to eight years of service; 16 hours per month for eight to fifteen years of service; and 18 hours per month for fifteen years of service and above. There is no requirement that annual leave be taken, and there is no maximum accumulation. At termination, employees are paid up to 240 hours of accumulated leave.

Nine month employees earn major medical leave at a rate of 13 1/3 hours per month for one month to three years of service; 14 1/5 hours per month for three to eight years of service; 15 2/5 hours per month for eight to fifteen years of service; and 16 hours per month for fifteen years of service and above. There is no limit on the accumulation of major medical leave. At retirement, employees are paid up to 240 hours of accumulated major medical leave.

#### (T) UNEARNED REVENUES

Unearned revenues include amounts received for tuition and fees and certain auxiliary activities prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenues also include amounts received from grant and contract sponsors that have not yet been earned.

#### (U) NONCURRENT LIABILITIES

Noncurrent liabilities include (1) principal amounts of revenue bonds payable, notes payable and capital lease obligations; (2) estimated amounts for accrued compensated absences and other liabilities that will not be paid within the next fiscal year; and (3) other liabilities that, although payable within one year, are to be paid from funds that are classified as noncurrent assets.

#### (V) INCOME TAXES

As a state institution of higher learning, the income of the University is generally exempt from federal and state income taxes under Section 115(1) of the Internal Revenue Code; however, income generated from activities unrelated to the University's exempt purpose is subject to income taxes under Internal Revenue Code Section 511(a)(2)(B).

#### (W) CLASSIFICATION OF REVENUES AND EXPENDITURES

The University has classified its revenues as

either operating or non-operating revenues according to the following criteria:

#### **OPERATING REVENUES AND EXPENSES**

Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition, net of scholarship discounts and allowances and bad debt expense, (2) sales and services of educational departments and auxiliary enterprises (net of scholarship discounts and allowances), (3) Federal, state and local grants and contracts (non Title IV financial aid) and Federal appropriations, if any, and (4) interest on institutional student loans and other revenues. Examples of operating expenses include (1) employee compensation, benefits, and related expense; (2) scholarships and fellowships, net of scholarship discounts and allowances; (3) utilities, commodities (supplies), and contractual services; (4) professional fees; and (5) depreciation expenses related to certain capital assets.

#### **NON-OPERATING REVENUES AND EXPENSES**

Non-operating revenues have characteristics of non-exchange transactions. Non-operating revenues include activities that have the characteristics of non-exchange transactions, including state appropriation for operations and capital uses, federal grants for financial aid, gifts, investment income, and other revenue sources that are defined as nonoperating revenues by GASB No. 9, Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting, and GASB No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. Examples of non-operating expenses include interest on capital asset related debt and bond expenses.

#### (X) AUXILIARY ENTERPRISE ACTIVITIES

Auxiliary enterprises typically exist to furnish goods or services to students, faculty or staff, and charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. One distinguishing characteristic of auxiliary enterprises is that they are managed as essentially self supporting activities.

Auxiliary enterprises include residence halls, food services, bookstore, convenience store,

laundry, and faculty and staff housing. The general public may be served incidentally by auxiliary enterprises.

#### (Y) SCHOLARSHIP DISCOUNTS AND ALLOWANCES

Financial aid to students is reported in the financial statements under the alternative method as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid, such as loans, funds provided to students as awarded by third parties and Federal Direct Lending, is accounted for as a third-party payment (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as scholarship allowances, which reduce operating revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash.

Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a University basis by allocating the cash payments to students, excluding payments for services, on the ratio of total aid to the aid not considered to be third-party aid.

#### (Z) NET POSITION

Net position represents the difference between all other elements in a statement of financial position and is displayed in three components- net investment in capital assets; restricted (distinguishing between major categories of restrictions); and unrestricted.

Net Invested in Capital Assets reflects the University's total investment in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such debt is excluded from the calculation of Net Invested in Capital Assets.

Restricted, nonexpendable net position consists of endowment and similar type funds which donors or other outside sources have stipulated, as a condition of the gift instrument, the principal is to be maintained

inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Restricted, expendable net position includes resources that the University is legally or contractually obligated to spend in accordance with restrictions imposed by external parties. When both restricted and unrestricted resources are available for use, it is generally the University's policy to utilize restricted resources first and then unrestricted resources as needed.

Unrestricted net position represents resources derived from student tuition and fees, state appropriations, sales and services of educational activities, unrestricted gifts and grants, and auxiliary enterprises. While unrestricted net assets may be designated for specific purposes by action of management or the Board, they are available for use at the discretion of the governing board, to meet current expenses for any purpose. Substantially all unrestricted net assets are designated by the Board for academic and research programs and initiatives and capital programs.

The unrestricted net position balance of -\$246,005,532 at June 30, 2019, includes \$36,313,682 reserved for academic programs and research, \$15,771,705 related to capital projects, \$28,564,036 reserved for repairs and maintenance, with \$208,407,984 remaining for other purposes and -\$535,062,939 related to the University's pension and OPEB liability.

#### NOTE 2 **CASH AND INVESTMENTS** (A) POLICIES

#### CASH, CASH EQUIVALENTS AND SHORT-**TERM INVESTMENTS**

Investment policies, as set forth by the IHL System Board of Trustees policy and state statute, authorize the University to invest in demand deposits and interest bearing time deposits such as savings accounts, certificates of deposit, money market funds, U.S. Treasury bills and notes, and repurchase agreements. Investment policy at the University is governed by state statute (Section 27 105 33, MS Code Ann. 1972) and the Uniform

Prudent Management of Institutional Funds Act of 2006, which was adopted by the State, effective July 1, 2012.

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27 105 5 of the Mississippi Code Annotated (1972). Under this program, the University's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against these deposits. In the event of the failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Deposit Insurance Corporation.

#### **INVESTMENTS**

Investment policies as set forth by Board policy as authorized by Section 37 101 15, Mississippi Code Annotated (1972), authorize the University to invest in equity securities, bonds, and other securities. Investments are reported at fair value. A summary of cash and investments as of June 30, 2019 and 2018 is shown on page 20.

#### MISSISSIPPI STATE INVESTMENT POOL

The Mississippi State University Foundation, the University, the MSU Alumni Foundation, and the MSU Bulldog Club, Inc. are participants in a joint venture, the Mississippi State Investment Pool (MSIP), whereby certain assets are pooled for investment purposes. The Foundation is the investment pool's managing member, manages the assets of the pool, and maintains separate accounts for each participant. Investment income, gains and losses, and expenses of the MSIP are allocated to each participant based on their share of ownership of the MSIP. As of June 30, 2019 and 2018, the University owned an approximate 8.16% and 8.45% interest in the assets of the MSIP.

#### (B) CUSTODIAL CREDIT RISK

Custodial credit risk is defined as the risk that, in the event of the failure of the counterparty to a transaction, a government

will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured and unregistered with securities held by the counterparty's trust department or agent, but not held in the government's name. The University had no investments exposed to custodial credit risk at June 30, 2019 and 2018.

#### (C) INTEREST RATE RISK

Interest rate risk is defined as the risk a government may face should interest rate variances adversely affect the fair value of investments. The University does not presently have a formal policy that addresses interest rate risk. As of June 30, 2019 and 2018, the University had investments subject to interest rate risk shown above.

#### (D) CREDIT RISK

Credit risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. The University does not have a formal investment policy that addresses credit risk. As of June 30, 2019 and 2018, the University had the following investments subject to credit risk shown on the following page.

CREDIT RISK		
	2019	2018
	Fair Value	Fair Value

Fair value at June 30, 2018			\$36,658,020	\$36,658,020
Acquisitions			1,297,773	1,297,773
Dispositions			(803,177)	(803,177)
Net realized and unrealized gains (losses)			16,669	16,669
Fair value at June 30, 2019			\$37.135.946	\$37.135.946

#### (E) CONCENTRATION OF CREDIT RISK

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The University does not presently have a formal policy that addresses concentration of credit risk. As of June 30, 2019 and 2018, the University had issuers holding investments that exceeded 5% of total investments as shown on page 21.

#### NOTE 3 FAIR VALUE MEASUREMENT

Standards Governmental Accounting Board (GASB) Statement No. 72, Fair Value Measurement and Application, enhances comparability of governmental financial statements by requiring fair value measurement for certain assets and liabilities using a consistent definition and accepted valuation techniques. The standard establishes a hierarchy of inputs used to measure fair value that prioritizes the inputs into three categories - Level 1, Level 2 and Level 3 inputs - considering the relative reliability of the inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted (unadjusted) prices in active markets for identical financial assets or liabilities that the government has the ability to access at the measurement date;
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the financial asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the financial asset or liability.

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

ACCOUNTS RECEIVABLE		
	2019	2018
Type of Receivable:		
Student tuition	\$35,712,482	\$34,638,198

#### NOTE 4 ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2019 and 2018 consisted of the amounts which are shown above.

As a component unit of the State of Mississippi, the IHL System is precluded by statute from discharging amounts owed. Accordingly, gross accounts receivables and the allowance for doubtful accounts include amounts considered to be 100% uncollectible and fully reserved in prior years.

#### NOTE 5 NOTES RECEIVABLE FROM STUDENTS

Notes receivable from students are payable in installments over a period of up to ten years, commencing three to twelve months from the date of separation from the University.

The tables shown above are schedules of interest rates and unpaid balances as of June 30, 2019 and 2018.

#### NOTE 6 CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2019 and 2018 is presented on page 24.

Depreciation is computed on a straight line basis with the exception of library books, for which depreciation is computed using a composite method. A schedule of useful life, salvage values, and capitalization thresholds used to compute depreciation is presented in the chart to the right.

#### NOTE 7

#### ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

Accounts payable and accrued liabilities as of June 30, 2019 and 2018 are shown on the right

All amounts are considered current and expected to be settled within one year.

#### NOTF 8 **UNEARNED REVENUES**

Unearned revenues as of June 30, 2019 and 2018 are shown on to the right.

#### NOTE 9 LONG-TERM LIABILITIES

Long term liabilities of the University which consist of bonds payable, capital lease obligations, and certain other liabilities that are expected to be liquidated at least one year from June 30, 2019 and 2018. Annual requirements to repay outstanding debt are shown on page 26 and 27.

#### **BONDS PAYABLE**

The University has issued bonds to construct, renovate, and improve various campus facilities. As noted in the summary of significant accounting policies, the University established the Mississippi State University Educational Building Corporation (MSUEBC). This nonprofit Mississippi corporation was established in accordance with Section 37-101-61 of the Mississippi Code Annotated, 1972, for the purpose of acquiring, constructing, renovating, improving, and equipping University facilities. In accordance with GASB Statement Nos. 14 and 61, MSUEBC is considered a blended component unit of the university and is included in the general-

DEPRECIATION

purpose financial statements.

1981, Series C - United States Housing and Urban Development, Dormitory Renovation Loan - MSU issued bonds totaling \$2,250,000 in June 1981 (Series 1981C) for the renovation of residence halls on the main campus of MSU. Outstanding coupons bear interest at a rate of 3.00% with the final maturity in December 2020.

1981 Student Housing Revenue Bond of 1981 - MSU issued bonds totaling \$2,038,000 in December 1981 (Series 1981) for the constructing of married student apartments and housing for graduate students on the main campus of MSU. Outstanding coupons bear interest at a rate of 3.00% with a final maturity in December 2021.

Series 1998 - MSUEBC issued bonds totaling \$31,865,000 in August 1998 (Series 1998) for the construction, repairs, renovations, equipping, and improvements to student housing as well as other buildings on and off campus. \$16,535,000 of outstanding coupons were called and redeemed on May 5, 2009.

Series 2007A - MSUEBC issued bonds totaling \$6,110,000 in July 2007 (Series 2007A) for the (i) construction, rehabilitation, renovation, improving, repairing, equipping, and installing Colvard Student Union on the main campus of MSU, (ii) provide for capitalized interest in connection with the project, and (iii) pay the cost of issuing the bonds. Outstanding coupons bear interest at rates ranging from 4.125% to 5.00% with final maturity in August 2027.

Series 2009A-1 - MSUEBC issued bonds totaling \$29,615,000 in May 2009 (Series 2009A-1) for (i) constructing, furnishing, and equipping a new residence hall on the main campus of MSU, (ii) demolishing an abandoned residence hall, (iii) providing capitalized interest in connection with the project, and (iv) paying the costs of issuing the Bonds. Outstanding coupons bear interest at rates ranging from 2.75% to 5.25% with the final maturity in August 2038.

Series 2009A-2 - MSUEBC issued bonds totaling \$17,105,000 in May 2009 (Series 2009A-2) for refunding of a portion of the MSUEBC bonds issued August 1998 (Series 1998). Outstanding coupons bear interest at rates ranging from 3.00% to 4.50% with the final maturity in August 2023.

Series 2011 - MSUEBC issued bonds totaling \$54,370,000 in July 2011 (Series 2011) for (i) constructing, furnishing, and equipping new residence halls on the main campus of MSU and (ii) refunding of MSUEBC bonds issued in February 2001 (Series 2001). Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with the final maturity in August 2041. The University defeased \$8,940,000 of the outstanding EBC

Revenue Bonds, Series 2001. The balance of the proceeds (\$45,990,000) funded the construction of two new student housing facilities. As a result of the refunding, the University reduced its debt service requirement by \$1,352,050 over the next 15 years and obtained an economic gain of \$954,015.

Series 2013 - MSUEBC issued bonds totaling \$60,470,000 in October 2013 (Series 2013) for (i) refunding of commercial paper and (ii) renovating Davis Wade Stadium. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August 2043. The University refunded \$45,000,000 in commercial paper with the balance of the proceeds (\$15,470,000) funding the renovation of Davis Wade Stadium.

Series 2014A - MSUEBC issued bonds

totaling \$89,810,000 in May 2014 (Series 2014A) for (i) refunding of MSUEBC bonds issued in January 2004 (Series 2004), bonds issued in November 2004 (Series 2004A), and bonds issued in November 2005 (Series 2005) and (ii) construction of a new classroom building/parking garage. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August 2043. The University defeased \$71,245,000 of the outstanding EBC-Revenue Bonds (Series 2004, 2004A and 2005). Net proceeds of the refunding were deposited into irrevocable trusts for each of the refunded issues to provide all future debt service of the refunded debt. Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. As a result of the refunding, the University reduced its debt service by \$8,309,325 over the next 21 years and obtained an economic gain of \$6,406,286.

Series 2014B - MSUEBC issued bonds

totaling \$23,435,000 in May 2014 (Series 2014B) for construction of a new classroom building/parking garage and a new fresh foods facility. Outstanding coupons bear interest at rates ranging from .29% to 4.813% with final maturity in August 2043.

Series 2015 – MSUEBC issued bonds totaling \$56,010,000 in April, 2015 (Series 2015) for certain improvements and capital expenditures, including but not limited to, constructing, furnishing and equipping residence halls and a Center for America's Vets, and demolishing abandoned facilities, and to pay the related costs of the issuance, sale and delivery of the Series 2015 Bonds. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in November, 2044.

MSUEBC issued bonds totaling \$63,270,000 in May 2017 (Series 2017) for (i) refunding of MSUEBC bonds issued in July 2007 (Series 2007A) and bonds issued in May 2009 (Series A-1 and Series A-2) and (ii) for certain improvements and capital expenditures, including but not limited to, financing the addition and renovation to Dudy Noble Field-Polk Dement Stadium, and to pay the related costs of the issuance, sale and delivery of the Series 2017 Bonds. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August, 2045. The University defeased \$35,680,000 of the outstanding EBC Revenue Bonds (Series 2007A, Series 2009A-1 and Series 2009A-2). Net proceeds of the refunding were deposited into irrevocable trusts for each of the refunded issues to provide all future debt service of the refunded Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. As a result of the refunding, the University reduced its debt service by \$4,472,046 over the next 21 years and obtained an economic gain of \$3,364,020. The balance in the escrow account at June 30, 2017 was \$38,499,750.

Series 2017A – MSUEBC issued bonds totaling \$92,075,000 in December 2017 (Series 2017A) for (i) refunding of MSUEBC bonds issued in July 2011 (Series 2011) and bonds issued in October 2013 (Series 2013) and (ii) to pay the related costs of the issuance, sale and delivery of the Series 2017A Bonds. Outstanding coupons bear interest at rates ranging from 2.00% to 5.00% with final maturity in August, 2043. The University defeased \$86,005,000 of

the outstanding EBC Revenue Bonds (Series 2011 and Series 2013). Net proceeds of the refunding were deposited into irrevocable trusts for each of the refunded issues to provide all future debt service of the refunded debt. Accordingly, for financial reporting purposes, the defeased bonds and related trust accounts are not included in the financial statements. As a result of the refunding, the University reduced its debt service by \$5,716,209 over the next 26 years and obtained an economic gain of \$4,304,723. The balance in the escrow account at June 30, 2018 was \$95,011,278.

#### **COMMERCIAL PAPER**

In February 2012, the Board of Trustees of State Institutions of Higher Learning authorized the MSU Educational Building Corporation to establish an extendible commercial paper program that allows the institution to issue up to a maximum aggregate principal amount of \$50 million in the form of commercial paper. The commercial paper program was utilized in fiscal year 2013 as an interim financing vehicle for the renovation of Davis Wade Stadium but was converted into long-term debt by the MSUEBC 2013 Bond Issue. The University's commercial paper program is currently dormant, with no balance outstanding; however, the program could be reactivated at any time should the University deem it necessary.

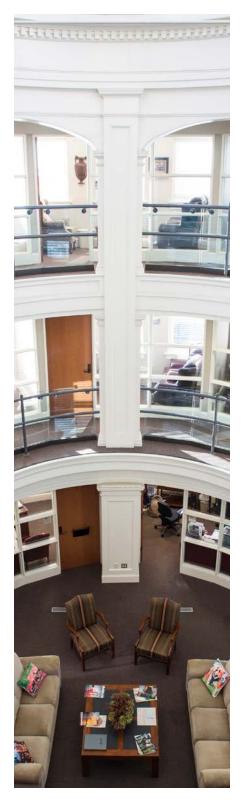

#### NOTE 10 Operating leases

Leased property under operating leases is composed of office rent, land, computer software, and equipment. The following is a schedule by year of the future minimum rental payments required under those non-cancelable leases shown on the following page.

The total rental expense for all operating leases, except those with terms of one month or less that were renewed, for the fiscal years ended June 30, 2019 and 2018 was \$3,326,717 and \$3,419,199, respectively.

# NOTE 11 NATURAL CLASSIFICATIONS WITH FUNCTIONAL CLASSIFICATIONS

The tables on page 29 list the operating expenses of the University by functional classification for the fiscal year ended June 30, 2019 and 2018.

# NOTE 12 CONSTRUCTION COMMITMENTS AND FINANCING

The University has contracted for various construction projects as of June 30, 2019. Estimated costs to complete various projects for June 30, 2019 and 2018 and the sources of anticipated funding are shown on page 30.

#### NOTE 13 PENSION PLAN

Mississippi State University participates in the following separately administered plans maintained by the Public Employees' Retirement System of Mississippi (PERS).

#### PLAN TYPE

- \*Multiple-Employer, defined benefit
- •Multiple-Employer, defined contribution

The employees of the University are covered by one of the pension plans outlined above (collectively, the Plans). The Plans do not provide for measurements of assets and pension benefit obligations for individual entities. The measurement date of the Plans is June 30, 2018 for fiscal year 2019 and June 30, 2017 for fiscal year 2018.

The funding methods and determination of benefits payable were established by the legislative acts creating such plans, as amended, and in general, provide that the funds are to be accumulated from employee contributions, participating entity contributions, and income from the investment of accumulated funds. The plans are administered by separate boards of trustees.

Information included within this note is based on the certification provided by consulting actuary, Cavanaugh Macdonald Consulting, LLC.

A stand-alone audited financial report is issued for the Plans and can be obtained at www.pers.ms.gov.

#### **DISCLOSURES UNDER GASB STATEMENT** NO. 68

The pension disclosures that follow for fiscal year 2019 and 2018 include all disclosures for GASB Statement No. 68 using the latest valuation reports available (June 30, 2018)

For fiscal year 2019, the measurement date for the PERS defined benefit plan is June 30, 2018. For fiscal year 2018, the measurement date for the PERS defined benefit plan is June 30, 2017. The University is presenting net pension liability as of June 30, 2018 and 2017 for the fiscal years 2019 and 2018 financials, respectively.

#### PLAN NAME

- \*PERS Defined Benefit Plan
- Optional Retirement Plan (ORP) Defined **Contribution Plan**

#### (A) PERS DEFINED BENEFIT PLAN **PLAN DESCRIPTION**

The PERS of Mississippi was created with the purpose to provide pension benefits for all state and public education employees, sworn officers of the Mississippi Highway Safety Patrol, other public employees whose employers have elected to participate in PERS, and elected members of the State Legislature and the President of the Senate. PERS administers a cost-sharing, multipleemployer defined benefit pension plan. PERS is administered by a 10-member Board of Trustees that includes the State Treasurer; one gubernatorial appointee who is a member of PERS; two state employees; two PERS retirees; and one representative each from public schools and community colleges, state universities, municipalities, and counties. With the exception of the State Treasurer and the gubernatorial appointee, all members are elected to staggered six-year terms by the constituents they represent.

#### MEMBERSHIP AND BENEFITS PROVIDED

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi (the State), state universities, community and junior colleges, and teachers and employees of the public school districts. Members and employers are statutorily required to contribute certain percentages of salaries and wages as specified by the board of trustees. A member who terminates employment from all covered employers and who is not eligible to receive monthly retirement benefits may request a full refund of his or her accumulated member contributions plus interest. Upon withdrawal of contributions, a member forfeits service credit represented by those contributions.

Participating members who are vested

# STATE

#### **NOTES TO FINANCIAL STATEMENTS**

and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0% of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5% for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is below 65, whichever is less. Average compensation is the average of the employee's earnings during the four highest compensated years of creditable service. A member may elect a reduced retirement allowance payable for life with the provision that, after death, a beneficiary receives benefits for life or for a specified number of years. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. In the event of death prior to retirement of any member whose spouse and/or children are not entitled to a retirement allowance, the deceased member's accumulated contributions and interest are paid to the designated beneficiary.

A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0% of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0% compounded for each fiscal year thereafter.

#### **CONTRIBUTIONS**

Plan provisions and the board of trustees' authority to determine contribution rates are established by Miss. Code Ann. § 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature.

Policies for PERS provide for employer and member contributions at actuarially determined rates that, expressed as

percentages of annual covered payroll, are adequate to accumulate sufficient assets to pay benefits when due. PERS members were required to contribute 9.00% of their annual pay. The institution's contractually required contribution rate for the year ended June 30, 2019 and 2018 was 15.75% for each year of annual payroll. Employer contribution rates consist of an amount for service cost; the amount estimated to finance benefits earned by current members during the year; and an amount for amortization of the unfunded actuarial accrued liability. For determining employer contribution rates, the actuary evaluates the assets of the plans based on a fiveyear smoothed expected return with 20.00% of a year's excess or shortfall of expected return recognized each year for five years. Contribution rates are determined using the entry age actuarial cost method and include provisions for an annual 3.00% cost-of-living increase calculated according to the terms of the respective plan. Contributions from the University are recognized when legally due, based on statutory requirements.

#### **EMPLOYER CONTRIBUTIONS**

Mississippi State University's contributions to PERS for the year ended June 30, 2019 and 2018 were \$32.5 million and \$31.3 million, respectively. The University's proportionate share was calculated on the basis of historical contributions. Although GASB Statement No. 68 encourages the use of the employer's projected long-term contribution effort to the retirement plan, allocation on the basis of historical employer contributions is considered acceptable. Employer contributions recognized by the University that are not representative of future contribution effort are excluded in the determination of employer's proportionate share. Examples of employer contributions not representative of future contribution efforts are contributions towards the purchase of employee service and employer contributions paid by employees in connection with early retirement.

The table below provides the institution's contributions used in the determination of its proportionate share of collective pension amount is reported.

SCHEDULE OF PROPORTIONATE SHARE OF COLLECTIVE PENSION					
Mississippi State University	2019	2018

Proportionate share of the net pension liability	\$517,960,848	\$525,651,937

# PENSION EXPENSE AND DEFERRED OUTFLOWS AND DEFERRED INFLOWS OF RESOURCES RELATED TO PENSIONS (UNAUDITED)

Deferred outflows of resources were related to differences between expected and actual experience, changes of assumptions, changes in proportion and differences between employer contributions and the proportionate share of contributions, and contributions made after the measurement date. The difference between expected and actual experience with regard to economic and demographic factors is amortized over the average of the expected

shown as a deferred outflow of resources.

See the table above for deferred outflows and inflows of resources related to pensions from identified sources.

Contributions subsequent to the measurement date of \$32.2 million reported as deferred outflows of resources will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Contributions subsequent to the measurement date of \$31.0 million reported as deferred outflows of resources will be recognized as a reduction of the net pension

liability in the year ended June 30, 2019.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense are shown on page 34.

#### ACTUARIAL ASSUMPTIONS AND METHODS

Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined during the valuation process are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Mississippi state statute requires that an actuarial experience study be completed at least once in each five-year period. The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2012 to June 30, 2016.

1% Increase (8.75%)	\$381,617,826	\$389,682,541

The table on page 34 provides a summary of the actuarial methods and assumptions used to determine the contribution rate reported for PERS for the year ended June 30, 2019 and 2018.

#### MORALITY

Mortality rates were based on the RP-2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022 with rates set forward one year for males with adjustments.

#### DISCOUNT RATE

For the year ended June 30, 2019 and 2018, the discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate (9.00%) and that employer contributions will be made at the current employer contribution rate (15.75%) for the year ended June 30, 2019 and 2018. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

#### LONG-TERM EXPECTED RATE OF RETURN

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis, in which best estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the target asset allocation as of June 30, 2019 and 2018 and are summarized in the table on page 34.

#### SENSITIVITY OF NET PENSION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The table on page 34 presents Mississippi State University's proportionate share of the net pension liability of the cost-sharing plan for 2019 and 2018, calculated using the discount rate of 7.75%, as well as what the University's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate.

#### (B) ORP DEFINED CONTRIBUTION PLAN

The Optional Retirement Plan (ORP) was established by the Mississippi Legislature in 1990 to help attract qualified and talented institutions of higher learning faculty. The membership of the ORP is composed of teachers and administrators of Mississippi State University appointed or employed on or after July 1, 1990, who elect to participate in ORP and reject membership in PERS. The ORP provides funds at retirement for University employees and in the event of death, provides funds for their beneficiaries, through an arrangement by which contributions are made to this plan. The current contribution rate of both the employee and the University are identical to that of the PERS defined contribution plan.

The ORP uses the accrual basis of accounting. Investments are reported at fair value, based on quoted market prices. Employees immediately vest in plan contributions upon entering the plan. The University's contributions to the ORP for the years ended June 30, 2019 and 2018 were \$15.0 million and \$14.5 million, which equaled its required contribution for the period.

#### NOTE 14 POSTEMPLOYMENT HEALTH CARE AND LIFE INSURANCE

#### **PLAN DESCRIPTION**

BENEFITS

In addition to providing pension benefits, the University provides other postemployment benefits (OPEB) such as health care and life insurance benefits to all eligible retirees and dependents. The State and School Employees' Life and Health Insurance Plan (the Plan) is self-insured and financed through premiums collected from employers, employees, retirees and COBRA

participants. The Plan was established by Section 25-15-3 et seq., Mississippi Code Ann. (1972) and may be amended only by the State Legislature. The State and School Employees' Health Insurance Management Board (the Board) administers the Plan.

The 14-member board is comprised of the Chairman of the Workers' Compensation Commission; the State Personnel Director; the Commissioner of Insurance; the Commissioner of Higher Education; the State Superintendent of Public Education; the Executive Director of the Department of Finance and Administration; the Executive Director of the Mississippi Community College Board; the Executive Director of the Public Employees' Retirement System; two appointees of the Governor; the Chairman of the Senate Insurance Committee, or his designee; the Chairman of the House of Representatives Insurance Committee, or his designee; the Chairman of the Senate Appropriations Committee, or his designee; and the Chairman of the House of Representatives' Appropriations Committee, or his designee. The Board has a fiduciary responsibility to manage the funds of the Plan. The Plan maintains a budget approved by the Board.

#### MEMBERSHIP AND BENEFITS PROVIDED

The Plan provides for Other Postemployment Benefits (OPEB) as a multiple-employer defined benefit OPEB plan for units of state government, political subdivisions, community colleges and school districts. A trust was created June 28, 2018 for the OPEB Plan and the plan is considered a cost-sharing multiple-employer defined benefit OPEB plan. Benefits of the OPEB Plan consist of an implicit rate subsidy, which is essentially the difference between the average cost of providing health care benefits to retirees under age 65 and the average cost of providing health care benefits to all participants when premiums paid by retirees are not age-adjusted.

#### CONTRIBUTIONS

Employees' premiums are funded primarily by their employers. Retirees must pay their own premiums, as do active employees for spouse and dependent medical coverage. The Board has the sole authority for setting life

and health insurance premiums for the Plan. Per Section 12-15-15 (10) Mississippi Code Ann. (1972), a retired employee electing to purchase retiree life and health insurance will have the full cost of such insurance premium deducted monthly from his or her state retirement plan check or direct billed for the cost of the premium if the retirement check is insufficient to pay for the premium. If the Board determined actuarially that the premium paid by the participating retirees adversely affects the overall cost of the Plan to the State, then the Board may impose a premium surcharge, not to exceed 15%, upon such participating retired employees who are under the age for Medicare eligibility and who are initially employed before January 1, 2006. For participating retired employees who are under the age for Medicare eligibility and who are initially employed on or after January 1, 2006, the Board may impose a premium surcharge in an amount the Board determined actuarially to cover the full cost of insurance.

Pursuant to the authority granted by Mississippi Statute, the Board has the authority to establish and change premium rates for the participants, employers and other contributing entities. An outside consulting actuary advises the Board regarding changes in premium rates. If premium rates are changed, they generally become effective at the beginning of the next calendar year or next fiscal year.

Plan participants are not subject to supplemental assessment in the event of a premium deficiency. At the time of premium payment, the risk of loss due to incurred benefit costs is transferred from the participant to the Plan. If the assets of the Plan were to be exhausted, participants would not be responsible for the Plan's liabilities.

Information included within this note is based on the certification provided by consulting actuary, Cavanaugh Macdonald Consulting, LLC.

The audited financial report for the Plan

can be found at knowyourbenefits.dfa.ms.gov.

At June 30, 2018 and 2017, the Plan provided health coverage to 327 and 334 employer units, respectively.

#### **DISCLOSURES UNDER GASB STATEMENT** NO. 75

The disclosures that follow for fiscal years 2019 and 2018 include all disclosures for GASB Statement No. 75 using the latest valuation report available (June 30, 2018). For fiscal year 2019, the measurement date for the State and School Employees' Life and Health Insurance Plan is June 30, 2018. For fiscal year 2018, the measurement date for the State and School Employees' Life and Health Insurance Plan is June 30, 2017. The University is presenting net OPEB liability as of June 30, 2018 and 2017 for the fiscal years 2019 and 2018 financials, respectively.

#### PROPORTIONATE SHARE ALLOCATION **METHODEOLOGY**

The basis for an employer's proportion is determined by comparing the employer's average monthly employees participating in the Plan with the total average employees participating in the plan in the fiscal year of all employers. This allocation was utilized because the level of premiums contributed by each employer is the same for any employee regardless of plan participation elections made by an employee.

#### **OPEB LIABILITIES, OPEB EXPENSE, AND DE-**FERRED OUTFLOWS OF RESOURCES AND **DEFERRED INFLOWS OF RESOURCES RE-LATED TO OPEB**

At June 30, 2019 and 2018, the University reported a liability of \$29.7 million and \$30.2 million, respectively, for its proportionate share of the net OPEB liability (NOL). For fiscal year ending June 30, 2019, the NOL was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. At June 30, 2019 and 2018, the University's proportion was 3.84%

and 3.85%, respectively.

For the years ended June 30, 2019 and 2018, the University recognized OPEB expense of \$1.4 million and \$1.5 million, respectively.

See the tables on page 37 for deferred outflows and inflows of resources related to OPEB from the identified sources

\$1,324,942 million reported as deferred outflows of resources related to OPEB resulting from the University contributions subsequent to the measurement date will be recognized as a reduction of the NOL in the year ending June 30, 2020.

\$1,289,418 reported as deferred outflows of resources related to OPEB resulting from the University contributions subsequent to the measurement date was recognized as a reduction of the NOL in the year ended June 30, 2019.

Deferred outflows of resources and deferred inflows of resources are calculated at the plan level and are allocated to employers based on their proportionate share. Changes in employer proportion, an employer specific deferral, is amortized over the average remaining service lives of all plan participants, including retirees, determined as of the beginning of the respective measurement period. The average remaining service life determined as of the beginning of the June 30, 2018 measurement period is 6.4 years. The average remaining service life determined as of the beginning of the June 30, 2017 measurement period is 6.7 years. Employers are required to recognize pension expense based on their proportionate share of collective OPEB expense plus amortization of employer specific deferrals.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as shown in the table below..

#### **ACTUARIAL METHODS AND ASSUMPTIONS**

The following table on page 38 provides a summary of the actuarial methods and assumptions used to determine the discount rate

## DEFERRED OUTFLOWS & INFLOWS OF RESOURCES

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision, as actual results are compared to past expectations and new estimates are made about the future.

#### **MORTALITY**

Both pre-retirement and post-retirement mortality rates were based on the RP 2014 Healthy Annuitant Blue Collar Table projected with Scale BB to 2022, male rates set forward 1 year and adjusted by 106% for males at all ages, and females adjusted to 90% for ages less than 76, 95% for age 76, 105% for age 78 and 110% for ages 79 and greater. Post-disability mortality rates were based on the RP 2014 Disabled Retiree Mortality Table set forward 4 years for males and 3 years for females.

#### **DISCOUNT RATE**

For the years ended June 30, 2019 and 2018, the discount rate used to measure the total OPEB liability was 3.89% and 3.56%, respectively. The

OPEB DISCOUNT RATE SENSIIVITY		
Mississippi State University proportionate share of NOL	2019	2018

discount rate is based on an average of the Bond Buyer General Obligation 20-year Municipal Bond Index Rates during the month of June published at the end of each week by the Bond Buyer.

#### LONG-TERM EXPECTED RATE OF RETURN

At June 30, 2019, the long-term expected rate of return, net of OPEB plan investment expense, including inflation was 4.50%. For fiscal year ended June 30, 2018, since there were no assets in a trust as of the measurement date, there was no projection of cash flows for the plan and no

long-term expected rate of return on plan assets.

#### SENSITIVITY OF NET OPER LIABILITY TO **CHANGES IN THE DISCOUNT RATE**

The following table above presents the University's proportionate share of the NOL for 2019 and 2018, calculated using the discount rate of 3.56% and 3.89%, respectively, as well as what the University's NOL would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate

# NOTE 15 DONOR RESTRICTED ENDOWMENTS

The net appreciation on investments of donor restricted endowments that is available for appropriation for expenditure as of June 30, 2019 and 2018 was \$965,676 and \$1,212,670 respectively. These amounts are included in the accompanying statements of net position in "restricted - expendable for other purposes" and "restricted - expendable for scholarships and fellowships."

Most endowments operate on the total return concept as permitted by the Uniform Management of Institutional Funds Act (Sections 79 11 601 through 79 11 617, MS Code, Ann. 1972) as enacted in 1998. The annual spending rate for these endowments is 5% of the three year moving average market value.

# NOTE 16

#### FEDERAL LOAN PROGRAM DISBURSEMENTS

The University distributed \$133,297,869 and \$129,828,073 for the years ended June 30, 2019 and 2018, respectively, for student loans through the U.S. Department of Education lending programs. These distributions and their related funding sources are included as cash flows from capital and noncapital financing activities in the statements of cash flows.

# NOTE 17 WORKERS' COMPENSATION, UNEMPLOYMENT, AND TORT LIABILITY FUNDS

Several types of risk are inherent in the operation of an institution of higher learning. There are several methods in which the institution can mitigate the risks. One of these methods is the pooling of resources among the institutions. The University and the other member institutions have pooled their resources to establish professional and general liability trust funds. Funds have been established for Workers' Compensation, Unemployment, and Tort Liability.

The Workers' Compensation Program provides a mechanism for the institutions to fund and budget for the costs of providing worker compensation benefits to eligible employees. The program does not pay benefits directly to employees. Funds are set aside in trust and a third party administrator is utilized to distribute the benefits to eligible

employees. Payments by the University to the Workers' Compensation Fund totaled approximately \$1,204,297 and \$1,112,727 for the fiscal years ended June 30, 2019 and 2018, respectively.

The Unemployment Trust Fund operates in the same manner as the Workers' Compensation Program. The Fund does not pay benefits directly to former employees. Unemployment Fund reimburses Mississippi Employment Security Commission for benefits that the Commission pays directly to former employees. Payments by the University to the Unemployment Trust Fund totaled approximately \$324,273 and \$262,922 for the fiscal years ended June 30, 2019 and 2018, respectively.

The Tort Liability Fund was established in accordance with Section 11 46 of Mississippi State Law. The Mississippi Tort Claims Board has authorized the Board of Trustees of State Institutions of Higher Learning (IHL Board) to establish a fund in order to self insure certain portions of its liability under the Mississippi Tort Claims Act. Effective July 1, 1993, Mississippi statute permitted tort claims to be filed against public institutions. A maximum liability limit of \$500,000 per occurrence is currently permissible. The IHL Board has authorized the Tort Liability Fund to acquire an educator's legal liability policy with a deductible of \$1,000,000. Further, the IHL Board has designated that \$1,000,000 be reserved from the IHL Tort Liability Fund

Net Assets to be used towards any future payment of this insurance deductible. The IHL Tort Liability claims pool also purchases insurance premiums for fleet automobile policies and blanket public officials bond annually. The share of the annual payments to the Tort Liability Fund and the various insurance premiums paid by the University totaled approximately \$0 and \$273,249 for the fiscal years ended June 30, 2019 and 2018, respectively.

# NOTE 18 AFFILIATED ORGANIZATIONS

University has affiliated organizations that were evaluated in accordance with GASB Statement No. 61, The Financial Reporting Entity: Omnibus, which the University adopted on July 1, 2012. These organizations were formed exclusively for the benefit of the University and serve to promote, encourage, and assist with educational, scientific, literary, research, athletic, facility improvement, and service activities of the University and its affiliates. These organizations include the Mississippi State University Educational Building Corporation, Mississippi State University Foundation, Inc. Mississippi State University Research Technology Corporation, The Bulldog Club, Inc., The Bulldog Foundation, Inc., and Mississippi State University Alumni Association. These affiliated entities are audited separately and, with the exception of the Mississippi State University Foundation and Mississippi State University Educational Building Corporation, have not been included in these financial statements. Therefore, the financial statements include the operations of the University, the Mississippi State University Foundation, and the Educational Building Corporation. The Mississippi State University Foundation financial statements presented discreetly following the University's financial statements. In accordance with paragraph 54a of GASB Statement No. 61, the Educational Building Corporation is reported as a blended component unit. Required condensed combining information is presented to the right.

# REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED JUNE 30, 2019

Schedule of Proportionate Share of Net Pension Liability	42
Schedule of Proportionate Share of Contributions	42
Schedule of Proportionate Share of Net OPEB Liability	4:
Schedule of Proportionate Share of Employer Contributions	43

# **NOTES TO FINANCIAL STATEMENTS**

# NOTE 1: **NET PENSION LIABILITY** (A) SCHEDULE OF PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

This schedule presents historical trend information about the University's proportionate share of the net pension liability for its employees who participate in the PERS. The net pension liability is measured as the total pension liability less the amount of the fiduciary net position of the plan. Information related to previous years is not available, therefore, trend information will be accumulated to display a ten-year presentation.

# (B) SCHEDULE OF PROPORTIONATE SHARE OF CONTRIBUTIONS TO THE PERS DEFINED BENEFIT PLAN

The required contributions and percentage of those contributions actually made are presented in the schedule. Information related to previous years is not available, therefore, trend information will be accumulated to display a ten-year presentation.

# C) CHANGES IN ASSUMPTIONS AND BENEFIT TERMS (PENSION PLAN)

There were no changes of assumptions for fiscal year 2019.

Changes of assumptions (2018):

- The expectation of retired life mortality was changed to the RP-2014 Healthy Annuitant Blue Collar Mortality Table projected with Scale BB to 2022;
- The wage inflation assumption was reduced from 3.75% to 3.25%;
- Withdrawal rates, pre-retirement mortality rates, disability rates and service retirement rates were adjusted to more closely reflect actual experience; and
- The percentage of active member disabilities assumed to be in the line of duty was increased from 6% to 7%.
- In fiscal year 2018, assumed rates of salary increase were adjusted to more closely reflect actual and anticipated experience.

Changes of benefit terms: Amounts reported for fiscal year 2019 and 2018 reflect no changes in benefit terms.

#### SCHEDULE OF PROPORATION SHARE OF THE NET PENSION LIABILITY ear end June 30 2015 2016 2017 2018 2019 Proportionate share of the net pension liability 3.11% 3.15% 3.22% 3.16% 3.11% Proportionate share of the net pension liability 377,668,592 487,619,635 575,770,041 525,642,937 517,960,848 Estimated covered-employee payroll provided by PERS 206,205,213 202,851,879 190,123,441 197,073,543 198,862,565 Proportionate share of the net pension liability as a precentage of its covered employee payroll 199.00% 247.43% 279.22% 259.13% 260.46 PERS fiduciary net position as a percentage of the total pension liability 67.00% 61.70% 57.47% 61.49% 62.54%

Consolidated Financial Statements

June 30, 2019 and 2018

(With Independent Auditors' Report Thereon)

KPMG LLP Suite 1100 One Jackson Place 188 East Capitol Street Jackson, MS 39201-2127

#### **Independent Auditors' Report**

The Board of Directors Mississippi State University Foundation, Inc.:

We have audited the accompanying consolidated financial statements of Mississippi State University Foundation, Inc. (the Foundation), which comprise the consolidated statements of financial position as of June 30, 2019 and 2018, and the related consolidated statements of activities, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Mississippi State University Foundation, Inc. as of June 30, 2019 and 2018, and the changes in their net assets and their cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

#### Emphasis of Matter

As discussed in Note 1(I) to the consolidated financial statements, Mississippi State University Foundation, Inc. adopted Accounting Standards Update (ASU) No. 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities during the year ended June 30, 2019. Our opinion is not modified with respect to this matter.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

#### (c) Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

The Foundation's investments are held in various types of investment securities and in various companies across a variety of markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Foundation's consolidated financial statements.

#### (d) Restricted Cash

Funds held for an unaffiliated organization that retains control over the expenditures of such funds are classified as restricted cash in the consolidated statements of financial position with a corresponding amount in agency payable.

#### (e) Land, Buildings, and Equipment

Land, buildings, and equipment are stated at cost, if purchased, or at fair value on the date of gift, if donated. Depreciation of buildings and equipment, including assets acquired under capital leases, is provided on the straight-line method over the shorter of the estimated useful life of the assets or the term of the lease. The estimated useful lives for buildings are 30-40 years and furniture, fixtures, and equipment are 5-10 years, with estimated salvage values ranging from 0-40%.

The Foundation assesses potential impairment to its long-lived assets when there is evidence that events or changes in circumstances have made recovery of the carrying value of the assets unlikely. An impairment loss is recognized when the sum of the expected future undiscounted net cash flows is less than the carrying amount of the asset.

#### (f) Fair Value Measurement

Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical financial assets or liabilities that the Foundation has the ability to access at the measurement date;
- Level 2 inputs are inputs other than guoted prices included within Level 1 that are observable for the financial asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the financial asset or liability.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

The level in the fair value hierarchy within which a fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The Foundation uses net asset value per share (NAV) or its equivalent as a practical expedient to estimate fair value, although NAV in many instances may not equal fair value. The NAV per share or its equivalent was applied to certain investments that do not have readily determinable fair values. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at discounts to the reported NAV. The fair value hierarchy requires the use of observable market data when available. The classification of assets and liabilities in the fair value hierarchy is not necessarily an indication of the risks or liquidity, but is based on the observability of the valuation inputs. Therefore, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

#### (g) Investments

#### (i) Overall Investment Objective

The overall investment objective of the Foundation is to invest its assets in a prudent manner that will achieve a long-term rate of return sufficient to fund donor-designated directives and maintain the inflation-adjusted impact of each donor restricted fund. Beginning July 1, 2017, investment decisions have been delegated to Perella Weinberg Partners Capital Management LP (PWP), the Foundation's outsourced chief investment officer. PWP executes investment decisions in accordance with the Foundation's approved investment policy.

#### Mississippi State Investment Pool

The Foundation, the University, the Mississippi State University Alumni Association, and The Bulldog Club, Inc. are participants in a joint venture, the Mississippi State Investment Pool (MSIP), whereby investable assets are pooled for investment purposes. The Foundation is the investment pool's managing member and maintains separate accounts for each participant. Investment income (loss), gains and losses, and expenses of the MSIP are allocated to each participant based on their share of ownership of the MSIP. Due to the Foundation's controlling financial interest in the MSIP of approximately 90% as of June 30, 2019 and June 30, 2018, the Foundation has consolidated the MSIP, reflecting the noncontrolling interests of the other participants in the consolidated financial statements. As of June 30, 2019 and 2018, the Foundation's consolidated financial statements include net assets totaling \$46,454,039 and \$45,568,476, respectively, related to these noncontrolling interests. The Foundation recorded \$1,779,694 and \$2,546,398 of investment gains attributable to these noncontrolling interests for fiscal 2019 and 2018, respectively, which is reported in net investment income.

#### Allocation of Investment Strategies

The Foundation invests in five broad asset classes: global fixed income, global equities, real assets, absolute return strategies, and private capital. Global equities consist of domestic and international equity securities. Global fixed income investments consist of both interest rate sensitive and credit sensitive publicly traded credit securities. Real assets include upstream energy investments, and real estate. Absolute return strategies include hedge fund investments. The private capital funds employ buyout and venture capital strategies. Private capital, real asset

Notes to Consolidated Financial Statements June 30, 2019 and 2018

strategies, and absolute return strategies often require the estimation of fair values by the fund managers in the absence of readily determinable fair market values. Because of the inherent uncertainties of valuation, these estimated fair values may differ significantly from values that would have been used had a ready market existed, and the differences could be material. Such valuations are determined by fund managers and generally consider variables such as operating results, comparable earnings multiples, projected cash flows, recent sales prices, and other pertinent information, and may reflect discounts for the illiquid nature of certain investments held. Moreover, the fair values of the Foundation's interests in shares or units of these funds, because of liquidity and capital commitment terms that vary depending on the specific fund or partnership agreement, may differ from the fair value of the funds' underlying net assets. Short-term investments consist of cash held by the investment pool, held primarily for capital calls and reinvestments.

#### Basis of Reporting

Investments are reported at estimated fair value. If an investment is held directly by the Foundation and an active market with quoted prices exists, then the market price of an identical security is used as reported fair value. Reported fair values for shares in mutual funds registered with the U.S. Securities and Exchange Commission are based on share prices reported by the funds as of the last business day of the fiscal year. Fixed income securities are based on quoted market prices or other observable inputs such as quoted prices for similar assets or inputs corroborated by observable market data. The Foundation's interests in alternative investment funds are generally reported at the NAV reported by the fund managers, which is used as a practical expedient to estimate the fair value of the Foundation's interest therein, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of June 30, 2019 and 2018, the Foundation had no plans or intentions to sell investments at amounts different from NAV. Properties held for investment are reported at estimated fair value based on periodic appraisals conducted by third-party appraisers who utilize the cost, sales comparison, and income capitalization approaches to estimate the fair value of the investments. The Foundation considers recent comparables, among other things, to adjust for any changes in fair value between the most recent appraisal date and year-end.

#### (h) Pledges

All unconditional promises to give are recorded at their estimated realizable value on a discounted basis using rates commensurate with the risks involved. Allowance is made for uncollectible pledges based upon management's judgment and analysis of specific accounts, past collection experience and other relevant factors.

#### (i) Split Interest Agreements

The Foundation accepts gifts subject to split interest agreements. These gifts may be in the form of gift annuities, charitable lead trusts, charitable remainder trusts, or perpetual trusts. At the time of receipt, a gift is recorded based upon the fair value of assets donated less any applicable liabilities. Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using appropriate discount rates (at June 30, 2019 and 2018 rates ranged from approximately 1% to 5%). For certain split interest agreements where the measurement objective is fair value, the discount rate is adjusted to a current market rate at each reporting date. The Foundation's

Notes to Consolidated Financial Statements June 30, 2019 and 2018

estimated remainder interests in split interest agreements are classified as net assets with donor restrictions based upon donor designations.

Externally managed trusts consist of irrevocable charitable remainder trusts and perpetual trusts whereby the Foundation is the beneficiary, not the trustee. The Foundation records charitable remainder trusts at the present value of the estimated future cash receipts from the assets of the trust and perpetual trusts at the fair value of the assets of the trust.

Present value of amounts due from externally managed trusts and liabilities under split interest agreements are classified as Level 3 fair value measurements.

Contribution revenue attributable to split interest agreements for the years ended June 30, 2019 and 2018 was \$2,745,943 and \$1,135,097, respectively.

#### (i) Income Taxes

The Foundation is a not-for-profit entity as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been made. As of June 30, 2019 and 2018, there were no material uncertain tax positions.

#### (k) Liquidity

Assets are presented according to their nearness of conversion to cash and liabilities are presented according to their nearness to payment or use of cash.

#### (I) Recent Accounting Pronouncements

The FASB issued Accounting Standards Update (ASU) No. 2016-14, Presentation of Financial Statements of Not-for-Profit Entities, in August 2016. ASU 2016-14 changes how not-for-profit entities report net asset classes and expenses and disclose liquidity and availability of financial assets in their financial statements. The Foundation implemented the provisions of ASU 2016-14 during the year ended June 30, 2019. As a result of the adoption of this ASU, certain prior year amounts have been reclassified.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

Net asset reclassifications as of June 30, 2018, resulting from the adoption of ASU 2016-14 are as follows:

	ASU 2016-14 Classifications		
Net assets classifications, as previously presented	_	Without donor restrictions	With donor restrictions
Unrestricted net assets attributable to the Foundation Unrestricted net assets attributable to noncontrolling	\$	42,807,487	_
interests		45,568,476	_
Temporarily restricted net assets		_	118,911,931
Permanently restricted net assets		_	368,768,505
Underwater endowments, included in unrestricted net assets		709,680	(709,680)
	\$	89,085,643	486,970,756

Net asset reclassifications as of June 30, 2017, resulting from the adoption of ASU 2016-14 are as follows:

		ASU 2016-14 C	Classifications
Net assets classifications, as previously presented	-	Without donor restrictions	With donor restrictions
Unrestricted net assets attributable to the Foundation Unrestricted net assets attributable to noncontrolling	\$	41,665,507	_
interests		44,286,842	_
Temporarily restricted net assets		_	103,032,871
Permanently restricted net assets		_	354,035,381
Underwater endowments, included in unrestricted net assets		828,814	(828,814)
	\$	86,781,163	456,239,438

In addition, net investment income for the year ended June 30, 2018 was reclassified between without donor restrictions (previously unrestricted net assets) and with donor restrictions (previously temporarily restricted net assets) by \$119,134 due to the change in underwater endowments.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. ASU 2014-09 provides a single model for recognizing revenue arising from contracts with customers and supersedes current revenue recognition guidance. This ASU requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of goods or services and will replace existing revenue recognition guidance in U.S. GAAP when it becomes effective. This ASU will become effective for the Foundation beginning in fiscal year 2020. The guidance permits entities to either apply the requirements retrospectively to all prior periods presented, or apply the requirements in the year of adoption, through a cumulative adjustment. The Foundation has not yet determined the impact of the new standard on its current policies.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). ASU 2016-02 requires the lessee to recognize assets and liabilities for leases with lease terms of more than twelve months. For leases with a term of twelve months or less, the Foundation is permitted to make an accounting policy election by class of underlying asset to recognize lease assets and lease liabilities. Further ASU 2016-02 requires a finance lease to recognize both an interest expense and an amortization of the associated expense. Operating leases generally recognize the associated expense on a straight line basis. ASU 2016-02 requires the Foundation to adopt the standard using a modified retrospective approach and adoption beginning in fiscal year 2021. The Foundation is currently evaluating the impact that ASU 2016-02 will have on its financial reporting.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230). ASU 2016-18 requires that the statement of cash flows explain the change during the period in the total of cash and restricted cash. Therefore, amounts generally described as restricted cash should be included with cash when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The ASU is effective for fiscal years beginning after December 15, 2018, using a retrospective transition method to each period presented. The Foundation is currently evaluating the impact that ASU 2016-18 will have on the consolidated financial statements.

In June 2018, the FASB issued ASU 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made, which provides assistance in determining if a transaction should be accounted for as a contribution or as an exchange, as well as providing guidance in determining whether a contribution is conditional. The guidance should be applied on a modified prospective basis, although a retrospective application is permitted. The new standard is effective for the Foundation for the fiscal year 2020. The Foundation has not yet determined the impact of the new standard on its current policies.

#### (m) Subsequent Events

The Foundation evaluated all events or transactions that occurred after June 30, 2019 through October 31, 2019, the date the consolidated financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in the Foundation's June 30, 2019 consolidated financial statements.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

#### (2) Investments

Investments are summarized as follows as of June 30, 2019 and 2018:

	_	2019	2018
Short-term investments	\$	8,094,707	2,664,509
Agility Comprehensive Solutions Feeder Fund LP		408,128,487	329,806,753
Global fixed income		4,220,959	3,695,315
Global equities		9,472,100	2,591,037
Real assets		31,615,070	37,582,149
Absolute return strategies		308,893	57,813,117
Private capital		15,192,530	11,543,325
Contributed properties held for investment		34,594,669	33,335,253
Cash-surrender value of life insurance	_	1,886,091	1,965,236
	\$_	513,513,506	480,996,694

Total investments include amounts related to noncontrolling interests (note 1(g)) included within the accompanying consolidated financial statements totaling \$46,454,039 and \$45,568,476 as of June 30, 2019 and 2018, respectively.

The MSIP has invested in a limited partnership interest in the Agility Comprehensive Solutions Feeder Fund LP, a Delaware limited partnership (the Fund). The Fund invests all or substantially all of its investable assets, on an investment-by-investment basis, either (i) directly through a "master fund/feeder fund" structure, or (ii) indirectly through Agility Comprehensive Solutions Offshore Fund Ltd., a Cayman Islands exempted company, in Agility Comprehensive Solutions Fund LP., a Delaware limited partnership (the Master Fund). Perella Weinberg Partners Agility Comprehensive Solutions Fund GP LP serves as general partner of the Fund. The Fund, through the Master Fund, invests in five broad asset classes with approximate allocation percentages at June 30, 2019 and 2018:

	2019	2018	
Global equities	56 %	65 %	
Global fixed income	12	18	
Absolute return strategies	21	7	
Real assets	8	8	
Private capital	3	2	

The Foundation has entered into various split interest agreements, including charitable remainder unitrusts and charitable gift annuities, whereby the Foundation serves as trustee. The assets held under these split interest agreements are included in investments at June 30, 2019 and 2018 with an approximate fair value of \$12,789,516 and \$6,263,248, respectively.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

#### (3) Pledges Receivable

Pledges receivable, net, are summarized as follows at June 30, 2019 and 2018:

	_	2019	2018
Unconditional promises expected to be collected in:			
Less than one year	\$	11,626,312	23,889,272
One year to five years		22,249,630	16,662,471
Over five years	_	5,005,000	5,318,000
		38,880,942	45,869,743
Less unamortized discount (rates ranging from 1% to 5%)		(5,518,792)	(4,993,241)
		33,362,150	40,876,502
Less allowance for uncollectible pledges	_	(1,112,007)	(951,748)
	\$	32,250,143	39,924,754

# (4) Land, Buildings, and Equipment

Land, buildings, and equipment are summarized as follows at June 30, 2019 and 2018:

	_	2019	2018
Land and buildings	\$	12,147,987	12,147,987
Furniture, fixtures, and equipment	_	8,375,103	8,587,404
		20,523,090	20,735,391
Less accumulated depreciation	_	(10,206,162)	(12,637,913)
	\$_	10,316,928	8,097,478

### (5) Net Assets Without Donor Restrictions

Net assets without donor restrictions as of June 30, 2019 and 2018:

		2019	2018
Spendable funds	\$	12,532,812	15,748,781
Quasi-endowment funds		19,658,949	19,670,908
Net investment in land, buildings and equipment		10,316,928	8,097,478
	\$_	42,508,689	43,517,167

Quasi-endowment funds are those funds held by the Foundation to function as endowments for the benefit of the University.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

# (6) Net Assets With Donor Restrictions

Net assets with donor restrictions are restricted for the following purposes:

	_	2019	2018
Subject to expenditure for specified purpose:			
General college support	\$	10,883,299	11,043,794
Student financial aid		16,613,295	15,833,748
Research		198,651	289,666
Faculty and staff support		374,819	354,293
Facilities		9,909,095	618,663
Other	_	1,851,167	3,814,716
	_	39,830,326	31,954,880
Subject to the passage of time and specified purpose: Charitable remainder trusts, cash surrender value of life			
insurance, gift annuities and other		15,519,311	15,571,919
Pledges receivable restricted by donors	_	15,814,926	23,008,178
	_	31,334,237	38,580,097
Donor restricted endowments subject to spending policy and appropriation to support the following purposes (including net accumulated earnings of approximately \$50,108,000 and \$47,864,000 at June 30, 2019 and 2018, respectively):  Subject to endowment spending policy and appropriation:			
General college support		91,652,973	86,900,650
Student financial aid		193,293,683	178,946,678
Research		16,138,355	16,451,965
Faculty and staff support		55,915,805	54,794,344
Facilities		7,730,315	7,724,965
Other	_	11,045,193	10,141,576
		375,776,324	354,960,178
Charitable remainder trusts, gift annuities and other		47,584,896	44,559,025
Pledges receivable restricted to endowment by donors	_	16,435,217	16,916,576
	\$_	510,961,000	486,970,756

Notes to Consolidated Financial Statements June 30, 2019 and 2018

# (7) Fair Value Measurement

The following tables summarize the Foundation's financial instruments by major category in the fair value hierarchy as of June 30, 2019 and 2018:

				2019		
	_				Investments	
	_	Level 1	Level 2	Level 3	at NAV	Total
Recurring:						
Short-term investments Agility Comprehensive Solutions	\$	8,094,707	_	_	_	8,094,707

- (1) The Fund's terms allow for 5-day notice withdrawals at any month-end totaling up to 10% of its account balance at the Fund's previous fiscal year end, (plus any capital contributions to the Fund during the current year). In addition, the MSIP may make withdrawals from its capital account, of up to 100% of its Agility Global Equities, Agility Fixed Income, and Agility Real Asset holdings, as well as 25% of its Agility Absolute Return holdings, as of any fiscal quarter end, with at least one quarter's prior written notice to the general partner. Further, approximately \$11.6 million and \$7.6 million of MSIP's investment in the Fund is considered illiquid at June 30, 2019 and 2018, respectively, with up to a 10-year lockup period and 1-3 year extensions.
- (2) These funds have initial 10-year terms or 12-year terms, unless extended or dissolved sooner in accordance with the limited partnership agreements. Future commitments to these funds approximate \$5,345,000 and \$8,100,000 at June 30, 2019 and 2018, respectively. Private capital and real estate funds are generally made through limited partnerships. Under the terms of such agreements, the MSIP may be required to provide additional funding when capital or liquidity calls are made by fund managers. These partnerships have a limited existence, and they may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, or other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. The Foundation cannot anticipate such changes because they generally arise from

Notes to Consolidated Financial Statements June 30, 2019 and 2018

unforeseeable events, but should they occur they could reduce liquidity or originally anticipated investment returns. Accordingly, the timing and amount of future capital or liquidity calls in any particular future year are uncertain.

- (3) At June 30, 2019 and 2018, the MSIP invests in four natural resource investments, which have terms ending in 2019, 2022, 2025 and 2026. Investments with lockup periods are subject to one or more one to two-year extensions. Future commitments to these funds approximate \$8,695,000 and \$10,300,000 June 30, 2019 and 2018, respectively.
- (4) Generally, MSIP's investments in absolute return strategies (or hedge funds) allow early redemption for specified fees. The terms and conditions upon which an investor may redeem an investment vary, usually with the majority requiring 60 days to 12 months notice after the initial lock up period, which may be from one to three years. At June 30, 2019 and 2018, the Foundation had no absolute return strategy investments for which an otherwise redeemable investment was not redeemable.
- (5) Bulldog Forest properties totaling approximately \$21,608,000 and \$27,806,000 at June 30, 2019 and 2018, respectively, may be held in perpetuity or liquidated at the Foundation's discretion. Other properties are for immediate sale.
- (6) The Foundation currently has no plans to surrender these policies prior to maturity, but cash would be realized in a minimal amount of time if an insurance policy is canceled.

The following table presents the Foundation's activities for the years ended June 30, 2019 and 2018 for contributed properties held for investment classified as Level 3:

	_	2019	2018
Balance, beginning of year	\$	33,335,253	27,098,091
Acquisitions		1,068,806	5,442,782
Dispositions		(347,500)	(250,000)
Net realized and unrealized gains (losses)		538,110	1,044,380
Balance, end of year	\$	34,594,669	33,335,253

For the years ended June 30, 2019 and 2018, the changes in present value of amounts due from externally managed trusts classified as Level 3 are as follows:

	_	2019	2018
Balance, beginning of year	\$	50,702,847	50,228,587
Contributions		_	881,325
Terminations		(619,478)	(1,771,645)
Change in valuation	_	703,924	1,364,580
Balance, end of year	\$_	50,787,293	50,702,847

Notes to Consolidated Financial Statements June 30, 2019 and 2018

#### (a) Pledges Receivable

Unconditional promises to give are recognized initially at fair value as contributions revenue in the period such promises are made by donors. Fair value is estimated giving consideration to anticipated future cash receipts (after allowance is made for uncollectible contributions) and discounting such amounts at a risk-adjusted rate commensurate with the duration of the donor's payment plan. These inputs to the fair value estimate are considered Level 3 in the fair value hierarchy. In subsequent periods, the discount rate is unchanged and the allowance for uncollectible contributions is reassessed and adjusted if necessary. Amortization of the discounts is recorded as additional contribution revenue.

#### (b) Other Receivables and Payables

The carrying amounts of receivable from the MSU Alumni Association, other receivables, accounts payable and accrued liabilities, and payable to Mississippi State University approximate fair value because of the short-term maturity of these instruments.

#### (c) Liabilities under Split Interest Agreements

Liabilities include the present value of projected future distributions to the annuity or trust beneficiary and are determined using appropriate discount rates at the date of contribution.

#### (8) Liquidity and Availability

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. The Foundation has a liquid operating reserve of \$3.5 million and \$3.0 million at June 30, 2019 and 2018, respectively. The primary source of this reserve is long-term board-directed prudent budgeting and expenditure management; this reserve may be drawn upon in the event of unusual, extreme, or prolonged financial distress. Other possible uses of the reserve could be a board-approved response to an immediate, unplanned liquidity need outside the typical operating budget life cycle. The current operating reserve falls slightly short of the Foundation's \$5.0 million operating reserve target, which is based on management's subjective judgment.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

As of June 30, 2019, the following assets could readily be available within one year to meet general expenditures:

Financial assets:		
Unrestricted cash	\$	3,523,259
Investments		513,513,506
Current receivables	_	222,634
Total financial assets at year-end		517,259,399
Less amounts with limits on usage:		
Amounts held for noncontrolling interests		(46,454,039)
Donor restricted endowments		(325,668,644)
Internally managed trusts		(12,789,516)
Subject to passage of time and/or specified purpose		(89,192,156)
Quasi-endowment funds		(19,658,949)
Operating reserves	_	(3,497,075)
Total financial assets available for general use within one year	\$	19,999,020

#### (9) Endowment

The Foundation's endowment consists of approximately 1,600 individual donor-restricted endowment funds established for a variety of purposes. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors of the Foundation (the Board) to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

#### (a) Interpretations of Relevant Law

The Board has interpreted the State of Mississippi Code of 1972 §79-11-701 through §79-11-719 cited as the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as requiring the Board to use reasonable care, skill, and caution as exercised by a prudent investor, in considering the investment management and expenditures of endowment funds. In accordance with UPMIFA, the Board may expend so much of an endowment fund's net appreciation as the Board determines to be prudent for the uses and purposes for which the endowment fund is established, consistent with the goal of conserving the long-term purchasing power of the endowment fund. The Board considered the following factors in making its determination:

- 1) The purpose of the Foundation
- 2) The intent of the donor of the endowment fund
- 3) The terms of the applicable instrument

Notes to Consolidated Financial Statements June 30, 2019 and 2018

- 4) The long-term and short-term needs of the Foundation and the University in carrying out their purposes
- 5) General economic conditions
- 6) The possible effect of inflation or deflation
- 7) The other resources of the Foundation and the University
- 8) Perpetuation of the endowment

As a result of this interpretation, the Board classifies as net assets with donor restrictions (a) the original value of gifts donated to the endowment and (b) the original value of subsequent gifts to the endowment. The investment income and appreciation of the donor-restricted endowment fund is classified as net assets with donor restrictions until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

Where the Board designates net assets without donor restrictions to function as endowments, they are classified as net assets without donor restrictions.

#### (b) Spending Policy

The Foundation's spending policy is designed to provide for positive growth in the market value of its endowment, net of distributions, over an extended period of time. In establishing this policy, the Board considered the long-term expected return of the endowment investment pool and the goal of maintaining the purchasing power of the endowment asset. Over the long-term, the current spending policy is designed to return a net positive gain in market value (growth) after spendable transfers.

The annual rate for spendable transfers, distributed annually, is 4% of the investment pool's average unit value over the 36-month period ending September 30 of the previous year. In addition, each endowed fund is assessed an annual 1.50% administrative fee. This fee covers administrative costs related to the operations of the MSIP, and is a major portion of the funding mechanism for the operations of the Foundation.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

#### (c) Investment Policy

The Foundation's investment objectives are to provide an annualized real (adjusted for inflation) rate of return of 5.50% or more in order to preserve, or increase, the purchasing power of endowment capital, while generating an income stream to support donor-specified purposes for the funds held for the colleges and units of the University. This policy is designed to tolerate volatility in short and intermediate-term performance. The endowment assets are invested as a part of the investment pool, as discussed in note 1(g).

To satisfy its long-term rate of return objectives, the pool employs a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation, through PWP, targets a diversified asset allocation that includes global equities, global fixed income, absolute return, real assets, and private capital to achieve long-term objectives within prudent risk constraints.

Endowment net asset composition by type of fund as of June 30, 2019 and 2018:

		2019	
	Without donor restrictions	With donor restrictions	Total
Donor-restricted endowment funds Board designated funds	\$ 19,658,949	375,776,324	375,776,324 19,658,949
Total funds	\$ 19,658,949	375,776,324	395,435,273
		2018	
	Without donor restrictions	With donor restrictions	Total

#### (d) Funds with Deficiencies

As a result of market declines for certain recently established endowments, the fair value of certain donor-restricted endowments was less than the historical cost value (original gift/book value) of such funds (underwater) by \$718,576 and \$709,680 as of June 30, 2019 and 2018, respectively. These endowments had an original gift value of approximately \$32,944,000 and \$26,816,000 at June 30, 2019 and 2018, respectively.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

# (10) Functional and Natural Expenses

Expenses are presented by functional classification in accordance with the overall service mission of the Foundation, which is to provide funds to the University. Program services or distributing to MSU are categorized in the primary areas of student financial aid, research, faculty and staff support, facilities and general college support. The operations of the Foundation are categorized as either fundraising or general and administrative according to the department in which the expense is incurred and allocated with techniques such as time and effort.

Notes to Consolidated Financial Statements June 30, 2019 and 2018

## (1) Organization and Significant Accounting Policies

#### (a) Organization

Mississippi State University Foundation, Inc. (the Foundation) is a not-for-profit entity established to solicit and manage funds for the benefit of Mississippi State University (the University). The Foundation also manages funds for affiliates of the University, including Mississippi State University Alumni Association and The Bulldog Club, Inc.

The Foundation has a wholly owned subsidiary limited liability company (LLC), Maroon Air, LLC, to hold aviation assets and conduct flight operations on behalf of the Foundation.

#### (b) Basis of Accounting

The accompanying consolidated financial statements include the Foundation, Maroon Air, LLC, and the Mississippi State Investment Pool in which the Foundation has a controlling financial interest (note 1(g)). These consolidated financial statements, which are presented on the accrual basis of accounting, have been prepared to present balances and transactions according to the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net assets with donor restrictions - net assets subject to donor-imposed stipulations that may or will be met either by actions of the Foundation and or the passage of time. Net assets in this class include unconditional gifts for restricted purposes and donor-restricted endowment funds.

Generally, the donor of these assets permits the Foundation to use all or part of the income earned on related investments for general or specific purposes in support of the University.

Net assets without donor restrictions – net assets that represent resources generated from operations or that are not subject to donor-imposed stipulations. Net assets without donor restrictions include contributions designated to a particular college or unit for which the use or purpose is unrestricted.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenditures are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulations or by law. Expirations of restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions, including unconditional promises to give, and grants are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions of intellectual property are based on its estimated fair value, considering the characteristics specific to the assets and estimated usage during the term of the agreement. Contributed goods and services are recorded as revenues and expenses in the consolidated statements of activities at estimated fair value.
